

Haryana State Pollution Control Board

Annual Report
2012-13

Introduction

The Haryana State Pollution Control Board (HSPCB) is a statutory authority entrusted the duty to implement environmental laws and rules within the jurisdiction of the State of Haryana. The Board ensures proper implementation of the statutes, judicial and legislative pronouncements related to environmental protection within the State. Haryana State Pollution Control Board was constituted under Water (Prevention and Control of Pollution) Act, 1974 vide Notification No. 86/(4)(iv)74/33298 dated 19.9.1974 initially for Prevention and Control of Water Pollution and maintaining or restoring wholesomeness of water. The State Pollution Control Board was also entrusted with additional responsibility of implementing the Water (Prevention and Control of Pollution) Cess Act, 1977 with a view of augmenting the resources of the State Pollution Control Boards. The State Pollution Control Board was also given additional responsibilities under Air (Prevention and Control of Pollution) Act, 1981 to take appropriate steps for preservation of quality of Air and Control of Air Pollution. The Board was subsequently given the responsibility of implementing a series of other environmental Acts and Rules, either directly or indirectly.

Various Environmental Acts and Rules

1. The Water (Prevention and Control of Pollution) Act, 1974, amended in 1988 and Rules made there under:

The Act provides (i) for the prevention and control of water pollution and for maintaining & restoring the wholesomeness of water, (ii) for the establishment of Boards for the prevention and control of water pollution, and (iii) for conferring on and assigning to such Boards the powers and functions relating thereto and for matters connected therewith.

2. The Water,(Prevention and Control of Pollution) Cess Act, 1977, amended in 1992, 2003 and Rules made there under;

The Act aims to provide for the levy and collection of cess on water consumed by persons carrying on certain industries and by local authorities, with a view to augment the resource of the Central Board and the State Boards for the prevention and control of water pollution constituted under the Water Act.

3. The Air (Prevention and Control of Pollution) Act, 1981, amended in 1987 and Rules made there under:

The prime objective of the Act is to provide (i) for the prevention, control and abatement of air pollution, (ii) for the establishment of Board, and (iii) for the conferring on and assigning to such Boards powers and functions relating thereto and for matters connected therewith.

Annual Report 2012-13

4. The Environment (Protection) Act, 1986, amended in 1991 and Rules made there under:

The Act intends to provide for the overall protection and improvement of the environment.

5. The Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008.

These Rules demands that the various categories of hazardous waste, as mentioned in the Rules and generated are properly stored, treated and disposed of, to ensure that the handling of such waste does not cause any ecological disturbance & damage to the Environment.

6. The Manufacture, Storage and Import of Hazardous Chemicals rules, 1989, amended in 2000.

The main intention of these Rules is to impose restriction on the manufacture and storage of hazardous chemicals, as well as to control the import of hazardous chemicals, which are not permitted to import under this Rule.

7. The Biomedical Waste (Management and Handling) Rules, 1998, amended in 2003.

These Rules aims for the management, handling and safe disposal of Biomedical Waste generated from health care establishments, in environmentally sound manner to ensure that handling of such waste does not cause any damage to the Environment & danger to living creatures.

8. The Plastics Waste (Management and Handling) Rules, 2011.

These Rules was notified to lay down the conditions on the manufacture, stocking distribution, sale and uses of plastics carry bags, sachets and containers and plastic waste management including Recycling recovery or disposal of plastic waste.

9. The Municipal Solid Waste (Management & Handling) Rules, 2000.

The main thrust of these Rules is for implementation of the provision of these rules in prescribed schedule by the Concerned Authorities and for any infrastructure development for collection, storage, segregation, transportation processing and final disposal of Municipal Solid Waste in Environmentally sound manner so as to prevent contaminations of ground water, surface water and ambient Air quality.

10. The Noise Pollution (Regulation and Control) Rules, 2000 amended in 2006.

These Rules intends to regulate and control Noise-producing and noise-generating sources. Rules relating to Noise Pollution Control notified under Environment (Protection) Rules, 1986: These rules categorize the areas & zones for application of standards in respect of noise depending upon the category of area by restricting the use of noise generating sources to maintain the ambient air quality standards in respect of noise for different areas / zones.

Annual Report 2012-13

11. The Batteries (Management and Handling) Rules, 2001.

These Rules deal with the import, Manufacture, assembling, sale & use of lead acid batteries as well as storage, collection reconditioning and recycling of used lead Acid Batteries and their components, in an environmentally sound & safe manner so that no damage is caused to environment for the management and handling of used batteries.

12. The Ozone Depleting Substances (Regulation and Control) Rules, 2001.

The Rule aims for regulating the ozone depleting substances.

13. The Public Liability Insurance Act, 1991, amended in 1992 and Rules made there under;

The Act aims at providing immediate relief to the persons affected by accident occurring while handling & use of any hazardous substances beyond thresh hold limits prescribed under the Act.

About Haryana State Pollution Control Board

1.2 Composition of the Board

The section 4 of the Water (Prevention and Control of Pollution) Act, 1974 and section 5 of the Air (Prevention and Control of Pollution) Act, 1981 provides the power to the State Government to constitute the State Pollution Control Board in the respective states. As per said provisions of the Act, the Board comprises of a Chairman, a Member Secretary and fifteen other members nominated by the State Government. The members of the Board include the representative of government, local authorities and state - Controlled corporations as also some persons represents the interest of agriculture, fishers or industry or trade.

Chairman of the Board during the year 2012-13:

Sr. No.	Name	Period
1	Sh. R.R. Jowel, IAS	up to 21.05.2012
2	Sh. P.K. Gupta, IAS	21.05.2012 to 21.12.2012
3	Dr. Avtar Singh, IAS	21.12.2012 onwards

The composition of the Board during the year 2011-12, as per Notification Endst. No. 2/22/2008-1E dated 23.12.2011 issued by the Environment Department Government of Haryana was as follows:-

Official Members

1.	Dr. Avtar Singh, IAS,	Chairman

Activities & Infrastructure of the Board

4.1 Mandated activities of the Board

The section 17 of the Water (Prevention and Control of Pollution) Act, 1974 and the Air (Prevention and Control of Pollution) Act, 1981 have clearly declared the legally mandated responsibilities of the State Pollution Control Boards which are summarized below :-

- To plan comprehensive programme for the prevention, control or abatement of water and air pollution in the state and to secure the execution thereof;
- To advise the State Government on any matter concerning the prevention, control or abatement of water and air pollution;
- To collect and disseminate information relating to water and air pollution, and the prevention, control or abatement thereof;
- To encourage, conduct and participate in investigations and research relating to problems of water pollution and prevention, control or abatement of water pollution;
- To collaborate with the Central Board in organizing the training of persons engaged or to be engaged in programs relating to prevention, control or abatement of water and air pollution and to organize mass education programs relating thereto;
- To inspect sewage or trade effluent treatment works and plants installed for the treatment of sewage and trade effluents and to review plans, specifications or other data relating to plants set up for the treatment of water, works for the purification thereof and the system for the disposal of sewage or trade effluents or in connection with the grant of any consent as required by the Water Act & Air Act, or in connection with the grant of any Authorization or registration as required by the Environment (Protection) Act, 1986 and Rules made there under;
- To inspect, at all reasonable times, any control equipment, industrial plant or manufacturing process and to give, by order, such directions, to such persons as it may consider necessary to take steps for the prevention, control or abatement of air pollution;

Annual Report 2012-13

- To inspect air pollution control area at such intervals as it may think necessary, assess the quality of air there in and take steps for the prevention, control or abatement of air pollution in such areas;
- To lay down, modify or annual effluent standards for sewage and trade effluents and for the quality of receiving waters (not being water in an inter-state stream) resulting from discharge of effluents and to classify waters of the state;
- To lay down, in consultation with the Central Board and having regard to the standards for the quality of air laid down by the Central Board, standards for emission of air pollutants in the atmosphere from industrial plant and automobiles or for the discharge of any air pollutant into the atmosphere from any other source whatsoever not being a ship or an aircraft;
- To evolve economical and reliable methods of treatment of sewage and trade effluents having regard to the peculiar conditions of soils, climate and water resources of different regions and more specifically the prevailing flow characteristics of water in streams and wells which render it impossible to attain even the minimum degree of dilution;
- To evolve methods of utilization of sewage and suitable trade effluents in agriculture or other utilities;
- To evolve efficient methods of disposal of sewage and trade effluent on land, as are necessary on account of the predominant conditions of scant stream flows that do not provide for major part of the year the minimum degree of dilution;
- To lay down standards of treatment of sewage and trade effluents to be discharged in any particular stream by taking into account the minimum fair weather dilution available in that stream and the tolerance limits of pollution permissible in the water of the stream, after the discharge of such effluents;
- To make, vary or revoke any order for prevention, control or abatement of discharge of waste into streams or wells and requiring any person concerned to construct new systems for the disposal of sewage and trade effluents or to modify, alter or extend any such existing system or to adopt such remedial measures as are necessary to prevent control or abate water pollution;
- To lay down effluent standards to be complied with by persons while causing discharge of sewage or sullage or both, and to lay down, modify or annual effluent standards for the sewage and trade effluent;

Annual Report 2012-13

- To advise the State Government with respect to the suitability of the any premises or location of any industry, which is likely to cause air pollution or likely to pollute a stream or well;
- To perform such other functions as may be prescribed or as may, from time to time, be entrusted to it by the Central Board or the State Government; and
- To do such other things and to perform such other acts as it may think necessary for the proper discharge of its functions and generally for the purpose of carrying into effect the purpose of the Air Act.

Although the Board's primary responsibility is to implement the environmental regulations within the state of Haryana, but during the last decade there has been a paradigm shift in the concept of implementing environmental regulation with a judicious mix of command and control regime with economic instruments for controlling pollution, as also, solving various long standing environmental issues through consensus where the Board went beyond it's mandated activities and acted as a promoter, providing financial assistance for controlling pollution in Government Department.

4.2 Infrastructure of the Board

The Board is headed by a Chairman with its head quarters at Panchkula. There are 12 Regional offices in the State located at Dharuhera, Ballabgarh, Gurgaon (North), Gurgaon (South), Faridabad, Bahadurgarh, Sonapat, Panipat, Panchkula, Hisar, Yamuna Nagar & Jind. The Board has established four laboratories of its own at Panchkula, Gurgaon, Faridabad, & Hisar for carrying out the work of collection & analysis of different types of effluents/ water samples and air emission samples from various industries of the state.

4.3 Functional Structure of the Board

The Board functions through its Engineering wing, scientific wing, Legal Wing, Administration wing, Accounts wing and Information Technology Cell. The Engineering wing is headed by Environmental Engineers and is mainly involved in implementing various environmental statutes in the State of Haryana including monitoring work and redressing public complaint.

The Scientific wing, headed by Scientists, is looking after the Board's four Laboratories and is also involved in various environmental monitoring projects as well in the implementing various Environmental statues.

The Legal wing, headed by the District Attorney, is looking after the legal aspects and representing the Board at different Courts of law.

The Administrative wings are managing the administrative and personal matters.

The Accounts wing manages the accounts and finance related issues of the Board.

Regulation of Plastic Carry Bags

Vide Notification No. 16/52/2007-3E dated 3 January, 2011 issued by Environment Department, Haryana Government prohibited the manufacture, distribution, stock, sale and use of plastic carry bags in the State and the use of all types of plastic articles such as plates, cups, tumblers, spoons, forks and straw has been banned in the following areas having special historical, religious, ecological significance:

- (i) Municipal Limits of Thanesar and Kurukshetra Towns.
- (ii) All Wildlife Sanctuaries and National Parks of Haryana.
- (iii) Gram Panchayat, Morni.
- (iv) Precincts of Mansa Devi Temple, Panchkula and Sheetla Mata Temple, Gurgaon.

Additional Authorities have been prescribed for effective implementation of the Notification viz District Magistrate, Additional District Magistrate, District Development and Panchayat Officer, Sub-Divisional Magistrate, City Magistrate, Executive Engineer, Public Health Engineering Department, District Food and Supplies Controller, District Town Planner, Estate Officer, Haryana Urban Development Authority, Block Development and Panchayat Officer, Tehsildar and Naib Tehsildar, Assistant Environmental Engineer/Scientist-B, Haryana State Pollution Control Board, Executive Officer/Secretary, Municipal Council/Committee.

Regular checkings has been conducted by the officers of the HSPCB and other authorized officers as per provisions of the notification and challans were issued against the 4047 violators of the above said notification issued by Govt.

Cloth/Jute bags were distributed among the general public on special occasions like World Environment Day, World Earth Day, World Water Day, World Wetland Day at all the District Head Quarters to discourage the use of plastic carry bags among the general public. This has spreaded a positive message amongst the masses including school children, to stop the use of plastic carry bags .

Action Plans / Projects for Abatement of Pollution

1. Status of information of Action plan critically polluted area of Panipat & Faridabad

- Meeting of technical review committee to review the progress on the implementation of the Action Plan in critically polluted areas was convened by CPCB on 29, 30 October, 2012.
- Regional officers were directed to submit Action Taken Report of Action Plan for abatement of pollution in respect of Faridabad and Panipat towns.
- Action Taken Report was sent by RO Panipat vide his letter dated 22.11.2012.
- RO Faridabad & Ballabgarh were again directed to submit action taken report with respect to Action Plan for abatement of pollution in respect of Faridabad town on 11.12.2012.
- RO Faridabad has sent Action taken report regarding Action Plan of Faridabad on dated 18.12.2012 to the Head Office.
- DO letters were written on dated 31.1.2013 to Deputy Commissioner, Faridabad & Panipat for holding of bi-monthly meetings of District level Committee to review the implementation of Action Plan on abatement of pollution in critically polluted industrial clusters of Faridabad & Panipat.
- DO letters were also written to all the Head of the Department of concerned departments i.e. EIC, Public Health Engineering Department, Chief Administrator, HUDA, Director Urban Local Bodies, MD HSIIDC, Director Town & Country Planning Department, Director Industries & Commerce Department, Principal Chief Conservator of Forest, Director General Health Services on 31.1.2013 for issuing necessary instructions for taking time bound action on all the action points relating to their department as mentioned in the Action Plan so that meeting o state level could be convened.
- CPCB awarded a project on 'Monitoring, Sampling Analysis of Ambient Air Quality Surface water and ground water quality' in the identified 43 critically polluted areas (CPAs) to M/s Bhagwathi Ana Labs Ltd., Hyderabad vide their letter dated 15.1.2013 and intimated to HSPCB on 31.1.2013.
- RO Panipat and Faridabad were directed vide letter dated 13.2.2013 to extend necessary corporations to M/s Bhagwathi Ana Labs and send the report to the Head Office and a copy was sent to CPCB.
- RO Panipat submitted Action Taken Report w.r.t. Action Plan for abatement of pollution with respect to Panipat vide letter dated 31.1.2013.

Annual Report 2012-13

- HSIIDC submitted the status of action points relating to them vide their letter dated 12.02.2013.
- Office of PCCF intimated vide their letter dated 4.2.2013 that their department has already initiated action against the action points related to their department.
- Director Town & Country Planning Department vide their letter dated 13.2.2013 intimated that rain water harvesting, solar water heater system and use of CFL in internal lighting as well as campus lighting have already been made mandatory in all licensed colonies
- Action regarding ECBC will be taken only after final decision taken by the Government.
- RO Faridabad submitted action taken report regarding Action Plan of District Faridabad vide letter dated 4.3.2013.

2. Shifting of Dyeing Units of Panipat from Non-conforming Area to Approved Industrial Area developed by HUDA.

The major problem of Panipat town was pollution caused by textile dyeing units located in residential areas. Earlier, Textile dyeing units were discharging polluted effluent in Panipat drain or in Cess Pools resulting in degradation of environment in the city. Accordingly, the matter regarding shifting of dyeing units was taken up in the meeting of Environment Protection Council in the year 2001. As per the decision taken in the Environment Protection Council, Haryana Urban Development Authority was made nodal agency for planning & development of infrastructure for Sector-29, Part-II for shifting of dyeing units from residential area. As per the survey conducted by a team of officers comprising of SDM Panipat, Regional Officer, Panipat Pollution Control Board, GMDIC Panipat 494 units were identified which were located in residential area and were required to be shifted to an approved industrial Estate in Sector-29, Part-II.

Haryana Urban Development Authority (HUDA) prepared a project for shifting of all these textile dyeing units which were located in residential area to an approved industrial area in Sector-29, Part-II. Accordingly, industries were persuaded to shift to industrial. Estate, Sector-29, Part-II. Haryana Urban Development Authority has already set up one Common Effluent Treatment Plant of 21 MLD capacity in the first phase for treatment of combined effluent of textile dyeing units which have been shifted in the Industrial Estate, Sector-29, Part-II. At present, Common Effluent Treatment Plant is receiving approx. 20 MLD effluent for treatment and has reached almost to its full capacity. There is a proposal of Haryana Urban Development Authority for installation of second unit of Common Effluent Treatment Plant of 21 MLD capacity.

3. Action Plan for critically polluted area.

Ministry of Environment & Forests, Govt. of India got carried out study during 2009 of the 88 industrial clusters across the country to find out the pollution status of these clusters. This study was carried out by Central Pollution Control Board (CPCB) & Indian Institute of Delhi (IIT Delhi). As a sequel to the above study, a Comprehensive Environmental Pollution Index was worked out on the basis of available data in each industrial cluster and assigned a Comprehensive Environmental Pollution Index (CEPI) score. Out of the 88 clusters studied, 43 clusters were having CEPI score of above 70 and have been identified as 'critically polluted clusters'. Faridabad industrial cluster with CEPI score of 77.07 was placed at 18th position and Panipat Industrial clusters with a CEPI score of 71.91 at 37th position in the order of severity of pollution level. Ankleshwar was the most critically polluted industrial cluster having 88.50 CEPI score.

Consequent upon the identification of critically polluted industrial clusters, Ministry of Environment & Forests, Govt. of India vide letter dated 13th January, 2010 had imposed moratorium on new developmental projects requiring Environmental Clearance in 43 industrial clusters. It was envisaged that during the period of moratorium, time bound action plans will be prepared by the respective State Pollution Control Boards for improving the Environment quality in these industrial clusters/ areas. The Action Plans so prepared would be finalized by the CPCB/ MOEF.

Accordingly, Action Plans for abatement of pollution in critically polluted town of Faridabad & Panipat were prepared by HSPCB in terms of guidelines given by the CPCB and same were submitted to CPCB. The In-house Committee of CPCB reviewed the Action Plans and after reviewing forwarded the Action Plans to the Ministry of Environment & Forests, Govt. of India.

The Action Plans were reviewed by the MOEF, GOI based on the inputs received from CPCB. In accordance with the information given by the Central Pollution Control Board to the MOEF that the State Pollution Control Boards and the local stake-holders have initiated some work on implementation of the submitted Action Plans, the MOEF, Govt. of India lifted the

Annual Report 2012-13

moratorium on consideration of projects for Environment Clearance in the industrial clusters of Faridabad & Panipat vide office memorandum dated 31st March, 2011.

The Central Pollution Control Board suggested that the State level and Local level Committees be constituted to review implementation of action points and regular follow up of implementation of action plans of the critically polluted areas.

As suggested by CPCB, the State Govt. constituted the State level Committee under the Chairmanship of the Chief Secretary to Govt. Haryana for reviewing the progress of implementation of the Action Plans of Faridabad & Panipat towns vide notification No. 16/12/2011-3E dated 30.12.2011 and also constituted Dist. Level Committees for Faridabad & Panipat towns vide notification No. 16/12/2011-3E dated 19.1.2012. The Distt. Level Committee headed by Deputy Commissioner Faridabad & Panipat have conducted meeting to review the progress of implementation of Action Plan for critically polluted industrial clusters of Faridabad and Panipat.

Implementation of the Action Plan is in progress and Board is taking strict action such as closure or filing prosecution cases in the court of law against those units which are found violating the provisions of relevant Acts or Action Plan.

Action has been initiated and taken by like departments on most of the points of Action Plan but there are many issues on which action is still required to be taken by various line departments viz Public Health Engineering Department, Urban Local Bodies, Industries & Commerce, Haryana Urban Development Authority. Accordingly, DO letters were written to these departments for taking action relating to their department for taking action relating to their department in a time bound manner, so that action plan is implemented within prescribed time limit.

Waste Minimization

(i) Clean and Advance Technology for waste Minimization

Clean Technology is an emerging field. Many industries have adopted clean technologies in the State to minimize the generation of pollutants right at the source, which is best option in the environment management. The end of pipe treatment is a costlier and cumbersome process. The category of which have adopted clean technology are electroplating, distillery, oil refining, used oil, basic drugs, textile dyeing etc. and list of such units operating in Haryana.

(ii) Zero Discharge

All the eight distillery units of Haryana installed Reverse Osmosis / Nano filtration/multiple effect evaporation system for achieving zero discharge in compliance of the directions of three members High Powered Committee constituted by Hon'ble Supreme Court of India. The Ministry of Environment & Forests, Govt. of India had appreciated the efforts of HSPCB for ensuring zero discharge in distillery units which are highly polluting in nature. The list of distillery units operating in Haryana State is given as under :-

Sr. No.	Name & address of the unit
1	N.V. Distilleries Ltd., Village Badholi, Tehsil. Naraingarh, Distt Ambala
2	M/s Haryana Organics, 4 th KM Stone, Chulkana road, Samalkha, Panipat
3	M/s Panipat Co-operative Sugar Mills (Distillery Unit), Gohana road, Panipat
4	M/s Frost Falcon Distilleries Ltd., Vill- Jahri, Sonapat
5	M/s Ashoka Distillires & Chemicals Pvt Ltd., Gehlab Road, Hathin, Palwal
6	Associated Distilleries Ltd., Bye Pass Road, Hisar
7	Haryana Distillery, 45, Industrial Area, Distt. – Yamuna Nagar
8	Piccadily Distillery, Bhadson, Indri, Karnal

Most of the distilleries which were using molasses as raw material got converted in to grain base distillery process.

Most of the construction and area development projects have adopted the zero liquid discharge concept by utilizing their trade effluent for horticulture purpose within their premises.

Action Taken Against The Defaulting Units

8.1 Closure Action

The Board is taking closure action under section 33-A of Water (Prevention & Control of Pollution) Act, 1974, under section 31-A of Air (Prevention & Control of Pollution) Act, 1981 & under section 5 of Environment (Protection) Act, 1986 against the defaulting units where the samples were failed, non applicant of consent etc.

The Closure Orders issued against the defaulting units due to non compliance under above said Acts are given as under:-

Region	No. of closure order issued under EP Act	No. of closure order issued under Water Act	No. of closure order issued under Air Act	No. of closure order issued jointly under Water & Air Act	Total No. of closure order issued

Total	1	123	261	155	540

The list is given at Annexure-I

Annual Report 2012-13

8.2 Legal Action

The Board is taking legal action under the provisions of Water (Prevention & Control of Pollution) Act, 1974, Air (Prevention & Control of Pollution) Act, 1981 and Environment (Protection) Act, 1986 against the industrial units/projects violating the above said Acts/Rules.

The status of court cases is given as under:-

CHAPTER -9

Grossly Polluting Industry & Highly Polluting 17 Category Industries

Grossly Polluting Industry- GPIs - Industries discharging effluents into a water course and (a) handling hazardous substances, or (b) effluent having BOD load of 100 Kg per day or more, or (c) a combination of (a) and (b). In 1993-94, CPCB initiated identification of industries along the rivers to control industrial discharges into rivers.

The National River Conservation Authority (NRCA) in its meeting dated July 12, 1997 directed to install the requisite effluent treatment systems in industries located on the bank of water-bodies.

In compliance of above, CPCB issued directions under Section 18(1) (b) of The Water Act, 1974, to all the SPCBs/PCCs on July 14, 1997, for inventorization of GPIs and initiating action against the defaulting industries.

The status of Grossly Polluting Industry is given as under:-

Highly Polluting 17 Category Industries

MoEF issued a notification on January 16, 1991 to ensure compliance of environmental standards in polluting industries. MoEF formulated 15 point programme for priority action.

CPCB selected 18 Categories of major polluting industries and after discussion 17 Categories of highly polluting industries are finalized for regular follow up through CPCB is given as under:-

Aluminium Smelting, Basic Drugs & Pharmaceuticals Manufacturing, Chlor Alkali/ Caustic Soda, Cement (200TPD and above), Copper Smelting, Dyes and Dye Intermediate, Fermentation (Distillery), Fertiliser, Integrated Iron & Steel, Leather Processing including Tanneries, Oil Refinery, Pesticide Formulation & Manufacturing, Pulp & Paper (30 TPD and above), Petrochemical, Sugar, Thermal Power Plants, Zinc Smelting

Cess Collection

The Government of India has enacted the Water (Prevention and Control of Pollution) Cess Act, 1977 to provide for the levy and collection of a Cess on water consumed by industries and by local authorities with a view to augment the resources of the Central Pollution Control Board and the State Pollution Control Boards. The Cess Act came into force with effect from 1st April, 1978. The local authorities defined under section 2 and industries under section 3 of the Cess Act are liable to pay the Cess.

During the year 2012-13 Cess amount of Rs. 4,96,54,810/- has been collected and the Region wise detail is given as under :-

Continuous Ambient Air Quality Monitoring Report

Continuous Ambient Air Quality Monitoring include Design, detailed system engineering, manufacture and supply of Fixed Continuous Ambient Quality Air Monitoring System as per CPCB/SPCB guidelines comprising of – SO_x, NO_x, NH₃, Cl₂ , CO Analysers, Weather monitors, associated auxiliary items including PC based data acquisition system with suitable Software to hook up with State Pollution Control Boards. The Board has installed four Continuous Ambient Air Quality Monitoring Stations at Faridabad, Gurgaon, Rohtak and Panchkula.

The data for the four stations are given at **Annexure-XIII**.

Monitoring report about water quality in drains/rivers and other water bodies

The objectives of the monitoring studies undertaken for water bodies are to assess variation in water quality with time, significance of various outfalls into water bodies, effectiveness of various steps undertaken for pollution abatement etc. With these objectives, Haryana State Pollution Control Board is regularly monitoring the entire Yamuna river stretch alongwith major polluting sources. Several reports had already been published based on these monitoring studies.

A project related with monitoring of Yamuna water quality under Yamuna action plan has been assigned to CPCB by National River Conservation Directorate (NRCD), Ministry of Environment & Forests. The present report covers the findings of studies under NRCD project and National Water Quality Monitoring Programme of CPCB. The water quality status of River Yamuna presented in this report is for the period 1999-2005.

The list is given at Annexure-XIV

Status of Consent

15.1 Categorization of industrial units/project under Red, Orange and Green.

The Board has categorized the industrial units/project under Red, Orange and Green category on the basis of the list given by CPCB. The green category of the industries were exempted from consent management vide order Endst. No. 2936-56 dated 16.11.2012 in view of less pollution potential. However these units/projects are required to provide the required pollution control devices if applicable.

The status of industries covered under Red and Orange category is given as under:-

Status of E-Waste Management

17.1 Units resgisted for Dismantling & Recycling of E-Waste under E Waste (M & H) Rules, 2011

The E-waste (Management & Handling) Rules, 2011 have been notified with primary objective to channelize the E-waste generated in the country for environmentally sound recycling which is largely controlled by the un-organized sector who are adopting crude practices that results into higher pollution and less recovery, thereby causing wastages of precious resources and damage to environment.

E-waste consists of all waste from electronic and electrical appliances which have reached their end- of- life period or are nolonger fit for their original intended use and are destined for recovery, longer fit for their original intended use and are destined for recovery, monitors, printers, keyboards, central processing units; typewriters, mobile phones and chargers, remotes, compact discs, headphones, batteries, LCD/Plasma TVs, air conditioners, refrigerator s and other household appliances. The composition of e-waste is diverse and falls under 'hazardous' and 'non-hazardous' categories. Broadly, it consists of ferrous and non-ferrous metals, plastics, glass, wood and plywood, printed circuit boards, concrete, ceramics, rubber and other items. Iron and steel constitute about 50% of the waste, followed by plastics (21%), non-ferrous metals (13%) and other constituents. Non-ferrous metals consist of metals like copper Non-ferrous metals consist of metals like copper, aluminium and precious metals like silver, gold, platinum, palladium and so on. The presence of elements like lead, mercury, arsenic, cadmium, selenium, hexavalent chromium, and flame retardants beyond threshold quantities make e-waste hazardous in nature.

18.1 Status of Authorization under Bio Medical Waste Rules, 1998

Bio-medical Waste (Management & Handling) Rules, 1998 were notified by the Ministry of Environment & Forests (MoEF) under the Environment (Protection) Act, 1986. These rules apply to all persons who generate, collect, receive, store, transport, treat, dispose or handle bio-medical waste in any form. The 'prescribed authority' for enforcement of the provisions of these rules in respect of all the health care facilities located in State.

Public Hearings

Public Hearing/ Consultation conducted during the year 2012-13 under EIA Notification Dated 14.9.2006

Public hearings are held as part of the public inquiry process. This provides interested parties with the opportunity to expand on written submissions and to discuss inquiry issues with Commissioners in a public forum.

Any organisation or person can attend a hearing, either to speak to a submission or simply to observe the proceedings.

Participation

Commission staff will contact those parties who have registered to speak to schedule a specific time for their appearance. While the amount of time allocated to individual participants will vary, it will usually not exceed one hour.

Participants are not required to attend for the entire duration of a hearing, although they are welcome to observe other speakers should they wish to do so.

At the conclusion of the schedule for the day (or during appropriate breaks in proceedings), Commissioners may accept brief comments from anyone in the audience. These comments will also be included in the transcripts. Interjections from the floor are not permitted during proceedings.
