

Extended Producer Responsibility Plan

Brief on general scheme of collection

We have partnered with E-waste Solutions registered with Haryana State Pollution Control Board for management and dismantling/ disposal of all our e-waste.

- As a part of agreement, E-waste Solutions will collect all our E-waste generated from PAN India and disposes the same at their plant at Industrial area1A, Industrial Estate, Sector 6, Faridabad, Haryana – 121006
- E-waste Solutions, our e-waste management partner is having all authorization related e-waste dismantling from HPCB/CPCB and having all connects related to Air/Water/Hazardous waste. They have capacity of **1000** MT per annum.
- Keeping in view our sales volume and generation of e-waste as per our future e-waste targets and our expansion plan we have decided to follow these mechanisms in our organization for collection of e-waste.
- As per our agreement with E-waste Solutions if any customer wants to handover their old product they can reach or call our e-waste recycling partner's Toll Free No **1800 123 5313**. Our representatives explain them about process of disposal and make them aware about nearest drop point available to drop the e-waste also give information about incentive we will offer to them against their end of life product. If any customer wants to handover the material from their door steps we do send either our logistics team or E-waste Solutions team to collect the items and channelize the same to our e-waste partner plant for final processing.

Proposed Awareness Programmes

Each and every customer is advice and creates awareness about how can we handle the electronic goods and channelize it to approved E-waste recycler/dismantler as per E-waste management rules 2016. Lack of awareness among various stakeholders about the ill effects of the end-of-life products (e-waste), is the major concern in our country. For reducing the adverse impact on environment and health we need to initiate sustainable mechanism to create awareness among the stake holders.

Ambrane India Pvt. Ltd. will launch awareness programme on Environmental Hazards of Electronic Waste under EPR plan implementation. We are planning to provide financial support for conducting various awareness programmes by Academic Institutions, Industry Associations and professional organizations for organizing workshops/ seminars for schools/ colleges/ Resident Welfare Associations (RWAs)/ Bulk Consumers/ Regulatory bodies, media engagement etc. so that they can provide information regarding buy-back programme system of Ambrane India Pvt. Ltd. and making campaign material for wide circulation on ill-effects associated with e-waste.

1. Seminars/ Workshops:

We will conduct region wise awareness programme and workshops at specific period of time and invite various stakeholders, School, College, institutions, retailers, dealers, bulk consumers etc to attend the same and we spread awareness about the hazardous content contains the electronics goods. We will also educate our stakeholders, School, College, institutions, retailers, dealers, and bulk consumers about benefits of the recycling of electronic goods.

We are planning for conducting seminar/workshops once in a year in metro cities/ small cities/urban areas/ north-east states.

2. Advertisement:

We will spread awareness by all means of social media like Facebook etc. and will provide advertisements through inserting pamphlets & booklets inside the newspaper so that each and every citizen of India would be aware about how to handle the E-waste.

3. Logos:

While packaging the product, we ensure that there will be e waste recycling logos on the packed product.

4. User Guide / Booklet/ Brochures:

It will provide to customers for handling e-waste as far as collection and recycling arrangements with proper guidelines as per E-waste management rule 2016.

5. Summary of Awareness Program:

Particulars	Details
Seminars/Workshops	Once in a Year
Advertisements	Once in a six month
Logos	On packaging of every product
User Guide/ Booklets/ Brochures	Inside every packed product

6. Do's & Don'ts

Do's:

- ✚ Always look for information on the catalogue with your product for end-of-life equipment handling.
- ✚ Ensure that only Authorized Recyclers repair and handle your electronic products.
- ✚ Always call our E-waste Authorized Collection Centres/points to dispose products that have reached end-of life.
- ✚ Always drop your used electronic products, batteries or any accessories when they reach the end of their life at your nearest Authorized E-Waste Collection Centres/Points.
- ✚ Always disconnect the battery from product, and ensure any glass surface is protected against breakage.

Don'ts:

- ✚ Do not dismantle your electronic Products on your own
- ✚ Do not throw electronics in bins having "Do not Dispose" sign.
- ✚ Do not give e-waste to informal (Kabbadi) and unorganized sectors like Local Scrap Dealer/ Rag Pickers.
- ✚ Do not dispose your product in garbage bins along with municipal waste that ultimately reaches landfills.

WEBSITE INFORMATION

<http://ambraneindia.com/e-waste/>

Introduction:

Electronic waste, or e-waste, is a term for electronic products that have become unwanted, non-working or obsolete, and have essentially reached the end of their useful life. As per E-waste Rule 2016, the E-waste defined as "electrical and electronic equipment, whole or in part discarded as waste by the consumer or bulk consumer as well as rejects from manufacturing, refurbishment and repair processes."

E-waste contains many valuable, recoverable materials such as aluminum, copper, gold, silver, plastics, and ferrous metals. In order to conserve natural resources and the energy needed to produce new electronic equipment from virgin resources, electronic equipment can be refurbished, reused, and recycled instead of being landfilled. E-waste also contains toxic and hazardous materials including mercury, lead, cadmium, beryllium, chromium, and chemical flame retardants, which have the potential to leach into our soil and water.

Brief on general scheme of collection:

We have partnered with E-waste Solutions registered with Haryana State Pollution Control Board for management and dismantling/disposal of all our e-waste.

As a part of the agreement, E-waste Solutions will collect all our E-waste generated from PAN India and dispose the same at their plant at Industrial area 1A, Industrial Estate, Sector 6, Faridabad, Haryana - 121006.

E-waste Solutions, our e-waste management partner is having all authorization related e-waste dismantling from HPCB/CPCB and having all connects related to Air/Water/Hazardous waste. They have a capacity of 1000 MT per annum.

Keeping in view our sales volume and generation of e-waste as per our future e-waste targets and our expansion plan we have decided to follow these mechanisms in our organization for the collection of e-waste.

As per our agreement with E-waste Solutions if any customer wants to hand over the old product they can reach or call our e-waste recycling partner's Toll-Free No 1800 123 5313. Our representatives assist them about the process of disposal and make them aware about final drop point available to drop the e-waste also give information about recycling we will offer to them.

AMBRANE

them against their end of life product. If any customer wants to hand over the material from their doorsteps we do send either our logistics team or E-waste Solutions team to collect the items and channelize the same to our e-waste partner plant for final processing.

E-waste Solutions, our e-waste management partner is having all authorization related e-waste dismantling from HPCB/CPCB and having all permissions related to Air/Water/Hazardous waste. They have a capacity of 1000 MT per Annum.

E-waste Solutions has signed an agreement with Agarwal Packers & Movers Ltd. for reverse logistics.

Benefit of recycling of E-waste:

E-waste contains many valuable, recoverable materials such as aluminum, copper, gold, silver, plastics, and ferrous metals. In order to conserve natural resources and the energy needed to produce new electronic equipment from virgin resources, electronic equipment can be refurbished, reused, and recycled instead of being landfilled.

E-waste also contains toxic and hazardous materials including mercury, lead, cadmium, beryllium, chromium, and chemical flame retardants, which have the potential to leach into our soil and water.

Protects your surroundings- Safe recycling of outdated electronics promotes sound management of toxic chemicals such as lead and mercury.

Conserves natural resources- Recycling recovers valuable materials from old electronics that can be used to make new products. As a result, we save energy, reduce pollution, reduce greenhouse gas emissions, and save resources by extracting fewer raw materials from the earth.

Helps others - Donating your used electronics benefits your community by passing on ready-to-use or refurbished equipment to those who need it.

Saves landfill space - E-waste is a growing waste stream. By recycling these items, landfill space is conserved.

Recycling of E-waste:

The company has tied-up with the E-waste Solutions for the collection of all our E-waste on PAN India and dispose the same at their plant at Industrial area 1A, Industrial Estate, Sector 6, Faridabad, Haryana - 121006. The customer can reach or call on Toll-Free No 1800 123 5313.
