

I/168926/2023

HARYANA STATE POLLUTION CONTROL BOARD
C-11, SECTOR-6, PANCHKULA
Ph-0172-577870-73, Fax No. 2581201
E-mail: hspcbwatercell@gmail.com

HSPCB/WC/

Dated: 13/07/2023

To

1. The Secretary, Government of India,
Ministry of Jal Shakti, Department of Water Resources,
River Development & Ganga Rejuvenation,
Shram Shakti Bhawan, Rafi Marg. New Delhi.
2. The Member Secretary,
Central Pollution Control Board,
Parivesh Bhawan, East Arjun Nagar,
New Delhi

Sub: Monthly progress Report by State of Haryana regarding Ghaggar and Yamuna Action Plan for the month of May, 2023.

Sir

Kindly refer to the subject noted above.

In this connection, it is intimated that there are two polluted river stretches in the State of Haryana i.e. river Ghaggar and Yamuna. I have been directed to enclose herewith the progress report of Ghaggar and Yamuna Action Plan of Haryana for the month of May, 2023 on the prescribed format for your kind information and necessary action please.

DA/ As above

Digitally Signed by

Jatinder Pal Singh

Date: 13-07-2023 17:02:07

Sr. Eny. Engineer (HQ)
Reasons Approved
For Chairman

National Mission for Clean Ganga
Format for submission of Monthly Progress Report in the NGT Matter OA No.
673 of 2018 (in compliance to NGT order dated 24.09.2020)

For the State of Haryana
Upto May, 2023

Overall status of the State:

I. Total Population: Urban Population

- ✓ Ghaggar catchment
Population – 26.9 lacs

- Yamuna catchment
Population – 84.6 lacs

- ❖ Other areas-
Population- 10.8 lacs

II. Estimated Sewage Generation (MLD):

- ✓ Ghaggar catchment
291.46 MLD sewage generation

- Yamuna catchment
1098 MLD sewage generation

- ❖ Other areas
117.5 MLD

III. Details of Sewage Treatment Plant:

• Existing no. of STPs and Treatment Capacity (in MLD):

- ✓ Ghaggar catchment
62 STPs of treatment capacity of 535 MLD

- Yamuna catchment
59 STPs of treatment capacity of 1075.2 MLD

- ❖ Other areas-
35 STPs of treatment capacity of 225 MLD.

• Capacity Utilization of existing STPs:

- ✓ Ghaggar catchment
295.7 MLD effluent reaching STPs.

- Yamuna catchment
1039 MLD effluent reaching STPs.

- ❖ Other areas
131 MLD effluent reaching STPs.

- **MLD of sewage being treated through Alternate technology:**
NIL

- **Gap in Treatment Capacity in MLD:**

- **Yamuna catchment**

There is Gap of 240 MLD in the installed treatment capacity at present in comparison to requirement i.e. sewage generation in some towns in catchment of river Yamuna i.e. Palwal (9.3 MLD), Faridabad (144.5 MLD) and Gurugram (86 MLD).

- **No. of Operational STPs:**

Ghaggar catchment

There are total 62 STPs installed in the catchment of river Ghaggar with the capacity of 535 MLD. As per latest status, 22 STP is not meeting the prescribed parameters. The list is enclosed as **Annexure-1**.

Yamuna catchment

There are total 59 STPs installed in the catchment of river Yamuna with the capacity of 1075 MLD. As per latest status, 24 STPs are not meeting the prescribed parameters. The list is enclosed as **Annexure-2**.

Other Areas

There are total 35 STPs of 225 MLD capacity installed in the other areas not falling in the catchment of rivers. Out of these 20 STPs are not meeting the prescribed limits. The list is enclosed as **Annexure-3**.

Table- Details of town wise STPs in the State of Haryana is given as under:-

Sr. No.	Town	Existing STP Capacity (MLD)	Capacity Being Utilized	Operational status of STP	Compliance status of STPs
Ghaggar Catchment					
1	Naraingarh	3	1.7	Operational	Non Complying
2	Ambala	44	22.1	Operational	3 STPs are complying, 9 STPs are Non-Complying (3 MLD Naya Gaon, Unit-I, 3.25 MLD Naya Gaon, Unit-II, 5 MLD Baldev Nagar Unit-I, 3.25 MLD Unit-II, Baldev Nagar, 5 MLD Moti Nagar, Unit -1, 5 MLD Moti Nagar, Unit-II, 6 MLD Modal Town, 3.25 MLD Nasirpur and 3 MLD Devi Nagar,

V. Solid Waste Management:

- **Total number of Urban Local Bodies and their Population.**

There are 88 Municipalities in the State out of which MC Manesar, Adampur, Siwan have been recently notified as Municipalities. Haily Mandi and Pataudi has been combined and named as new ULB Pataudi Mandi. As per updated report, Solid Waste Management 5640 TPD is daily generation of

Municipal Solid Waste and the population of all Municipalities is 88,42,103 as per Census 2011.

- **Current Municipal Solid Waste Generation.**

5640 TPD is daily generation of Solid Waste in the State. Brief status regarding management of Solid Waste in ULBs is as under:-

SWM Activities in State	Quantity
Total No. of Wards	1659
Quantity of Solid Waste	5640 TPD
No. of wards with 100% Door to Door Collection	1656
No. of wards where segregation is initiated	1191
Quantity of Wet waste	2989 TPD
Quantity of dry waste	2651 TPD
Quantity of wet waste being processed	2142 TPD
Quantity of dry waste being processed	1899 TPD
No. of vehicles for D2D collection	4005
No. of vehicle with Compartment	3300
No. of vehicles with GPS	3120
No. of GVPs Identified	851
No. of BWG identified	1103
No. of BWG processing on site	117
No. of Solid Waste Challan collected in last three months	Total 792 challan of amounting Rs. 219370/-
No. of Plastic Waste Challan collected in last three months	Total 3718 challan of amounting Rs. 1974200 /-

For processing of dry waste 86 Material Recovery Facilities (MRF) has also been constructed in various Municipalities for channelization of dry waste.

- **Number, installed capacity and utilization of existing MSW processing facilities in TPD (bifurcated by type of processing eg- Waste to Energy (Tonnage and Power Output), Compost Plants (Windrow, Vermi, decentralized pit composting), bio methanation, MRF etc.**

As per report submitted by ULBD, there are three existing operational centralized Waste to Compost (WTC) processing facilities in the State at Rohtak (175 TPD), Karnal (150 TPD) & Sirsa (50 TPD). Apart from the above, two Bio-Methanation plants are operational in Faridabad (5 TPD) & Karnal (15 TPD). One Bio-Gas plant of capacity 20 TPD (private party) is operational in Ambala.

Further, there are 3267 no. of compost pits (including park pits) having the capacity approx. 3180 TPD for processing of wet waste and horticulture waste in various MCs. In addition, approx. 11208 household pits have been constructed to encourage the households for home composting in Ambala Sadar, Faridabad, Gurugram, Kaithal, Karnal, Panchkula & Rohtak.

Further, Waste to Energy Plant at ISWM Sonapat-Panipat Cluster of 700 TPD capacity has been commissioned on 16.08.2021. Approximate 6.77 MW electricity is being generated in this plant.

Work of Waste to Energy Plant (2100 TPD) in Gurugram-Faridabad is also under implementation.

- **Action plan to bridge gap between Installed Capacity and Current Utilization of processing facilities (if Gap > 20%)**

Integrated Centralized Waste Processing Approach (Cluster Wise) is being adopted as a long-term approach, with an overall objective to setup regional Waste to Energy, Waste to Compost + RDF processing facilities and Secured Sanitary landfills for scientific disposal of Solid Waste. This approach is more coveted considering the constraints posed by the decentralized approach and its sustainability over long run.

As part of this approach, total 13 Clusters have been formed covering all the 88 ULBs of Haryana. Also, under this approach the projects will be set up on PPP mode and single agency/concessionaire will be responsible for Door to Door Collection, transportation, processing and disposal of Solid Waste for a concession period of 22 years.

Currently 2 Waste to Energy Cluster Projects namely Sonapat-Panipat and Gurugram-Faridabad have been awarded and construction of Sonapat-Panipat Cluster (700 TPD) Waste to Energy project has been commissioned on 16.08.2021. The Environmental Clearance of Gurugram-Faridabad (2300 TPD) Waste to Energy Projects has been granted. The construction of the plant is likely to start soon. Once commissioned these two projects alone will cater to 12 approx. 40% processing of entire waste being generated in the State. . Further, 3 Waste to Compost Cluster Projects namely Karnal-Kaithal-Thanesar (638 TPD), Bhiwani (155 TPD), Sirsa (168 TPD) have been finalized.

Remaining eleven (11) clusters are Open Technology Clusters. The details of 13 clusters are attached at **Annexure-4**.

- **Bioremediation of legacy waste lying at existing dump sites.**

Approximate 101 Lakh Metric Ton of legacy waste was lying at the dumping sites in Municipalities, out of which 50.86 lakh MT (50.17%) of legacy waste has been remediated. The details of the same areas under:-

Status of bioremediation of legacy waste in the Municipalities of State of Haryana

Sr. No	District	ULB	Quantity of Waste Legacy Waste (MT)	Quantity of Legacy Waste Remediated (MT)

The State Government has approved Rs. 262.67 Crore for bioremediation of legacy waste and out of approved amount Rs. 181.59 Crore has been released.

- **No. and capacity of C&D waste processing plants in TPD (existing, proposed and under construction)**

Presently Municipal Corporation, Gurugram has established a 300 TPD Construction and Demolition Waste processing plant at Village Basai and the capacity of the plant will be increased to 1500 TPD shortly. MC Gurugram has signed agreements with two private contractors to collect and transport the C&D waste from the household's level to the designated C&D waste Plant.

Further, the concessionaire for establishment of 300 TPD C&D waste management plant in Faridabad on PPP mode has also been finalized and agreement has also been signed between concessionaire and Municipal Corporation, Faridabad. As per the terms & conditions of agreement, the agency has started the processing of C&D waste.

- **Total no. of wards, no. of wards having door to door collection service, no. of wards practicing segregation at source**

As per report submitted by ULBD, there are total 1659 wards in MCs of Haryana out of which 1656 wards have been covered with door to door waste collection services. Out of the total wards, source segregation has been initiated in 1191 wards.

- **Details of MSW treatment facilities proposed and under construction (no., capacity, and technology).**

Detail is attached at **Annexure-4**.

- **No. and area (in acres) of uncontrolled garbage dumpsites and Sanitary Landfills.**

The detail of dumpsites attached at **Annexure-5**.

- **No. and area (in acres) of legacy waste within 1km buffer of both side of the rivers.**

No such data is available at present.

- **No. of drains falling into rivers and no. of drains having floating racks/screens installed to prevent solid waste from falling into the rivers**

The drains of MCs don't falls directly into the rivers. They ultimately join the drains of irrigation and the drains of irrigation falls into the rivers. The MCs are installing the wire mesh in the drains to prevent the solid waste from falling into the drains. At present approximate 387 small drains have been provisioned with wire mesh screens.

Status of ULB wise Management of Solid Waste

ULB	Total MSW generation in TPD	Total MSW being processed in TPD	Existing MSW facilities	Utilization Capacity of the existing MSW facilities	Proposed MSW Facilities & Completion Timeline
88	5640	4042	1. Municipal Corporation Sonapat (Waste to Energy Plant)- 700 TPD 2. Municipal Corporation, Karnal (Waste to Compost Plant)-	Total Utilization of the existing capacity of the processing facilities: 4010 TPD as mentioned below:	Integrated Solid Waste Management Projects are likely to be

ULB	Total MSW generation in TPD	Total MSW being processed in TPD	Existing MSW facilities	Utilization Capacity of the existing MSW facilities	Proposed MSW Facilities & Completion Timeline
			Capacity 150 TPD. 3. Municipal Corporation, Rohtak (Waste to Compost Plant)- Capacity 175 TPD. 4. Municipal Council, Sirsa (Waste to Compost Plant)- Capacity 50 TPD. 5. Municipal Corporation Karnal (Bio-methanation Plant)- Capacity 15 TPD 6. IOCL, Faridabad (Bio-methanation Plant)- Capacity 5 TPD 7. Suntan Biogas Plant, Ambala- Capacity 20 TPD 8. Total no. of compost pits for wet waste and horticulture processing - 2800 having the capacity approx. 3180 TPD. 9. Total 86 MRF are established in ULBs having the capacity approx. 2589 TPD	1. Municipal Corporation Sonapat (Waste to Energy)- 700 TPD 2. Karnal, (Waste to Compost)- 150 TPD 3. Municipal Corporation Rohtak (Waste to Compost)- 175 TPD 4. VI. Bio-medical Waste Management:

- **Total Bio-medical generation:**
Approx. 19.11 TPD Bio Medical Waste is generated in State of Haryana.
- **No. of Hospitals and Health Care Facilities:**
There are 6969 no. of HCFs in State of Haryana.
- **Status of Treatment Facility/ CBMWTF:**
There are 10 no. of authorized CBWTFs/Treatment facilities in State of Haryana

VII. Hazardous Waste Management:

- **Total Hazardous Waste generation:** 200297.678 tons
- **No. of Industries generating Hazardous waste-** 5754
- **Treatment Capacity of all TSDFs**
Incinerator (Kcal) - 2.5 Million.
Landfill (MTA) – 30 years
- **Avg. Quantity of Hazardous waste reaching the TSDFs and Treated**

Hazardous waste reaching TDFs		Hazardous waste treated	
Landfill	-21879.4 MT	Landfill	-21879.4 MT
Incineration	- 17681.2 MT	Quantity Incinerated	- 17681.2 MT

Details of on-going or proposed TSDF- Details given at Annexure-6

VIII. Plastic Waste Management:

- **Total Plastic Waste generation:**
Approximate 179406.47 TPA plastic waste is generated in the State.

- **Treatment/ Measures adopted for reduction or management of plastic waste:**

At present plastic waste is being channelized through MRF centers established in MCs.

IX. Details of Alternate Treatment Technology being adopted by the State/UT

The Nodal Department for execution of Bio/Phyto- Remediation identified. The SPV also asked the Department to submit the locations where the phyto remediation/bio-remediation wherever feasible.

ULB Department has started bio/phyto remediation works in the drains in Municipal Corporation, Yamuna Nagar – Jagadhri, as a pilot project, which will be replicated at other places. Municipal Corporation of Sonapat has also invited tenders for the bio/phyto remediation of drains. Similarly, Municipal Corporations of Gurugram and Faridabad are in the process of preparing the proposals for bio/phyto remediation. Municipal Corporation of Panipat has already floated the tenders for the process in their jurisdiction. GMDA has also initiated a pilot project as an interim treatment for untreated discharge of Leg I via geo-synthetic dewatering tubes in consultation with CPCB. PHED has undertaken the *in-situ* phyto/bio remediation in its new STPs at Indri and Beri. Chief Secretary, during the review meeting held, has also directed that all concerned Departments shall expedite the work on Bio/Phyto-Remediation.

X. Identification of polluting sources including drains contributing to river pollution and action as per NGT order on in situ treatment:

There are locations where the untreated/partially treated effluent is joining the main drains discharging into rivers. The action plans for control of pollution at these points is required to be submitted by Concerned Departments.

River Ghaggar

(C) Ground water quality status in the vicinity of river Ghaggar.

Ground water quality is being monitored at 78 locations in the catchment of river Ghaggar by HSPCB. Out of total 78 locations, ground water is found fit for drinking all 78 locations. Directions have already been conveyed to all the task forces to cap such water sources and a display board mentioning that "Water is not for drinking purpose" may be placed.

(C) Ground water quality status in the vicinity of river Yamuna.

Ground water quality is being monitored at 80 locations in the catchment of river Yamuna by HSPCB. Out of total 80 locations, ground water is found fit for drinking at 66 locations and non complying at 14 locations. Directions have already been conveyed to all the task forces to cap such water sources and a display board mentioning "Water is not for drinking purpose" may be placed. The same has been compiled by the task forces.

Sr. No.	Region	No. of Points monitored	Complying	Non-Complying

XIV. Ground water regulation:

The industries are being persuaded to obtain permission from CGWA/HWRA for extraction of ground water.

XV. Good irrigation practices being adopted by the State:

The major demand for river water is for Irrigation purposes and accordingly the State of Haryana has taken initiatives for water efficient farming practices which are given as under:-

(a) Project of Recycle and Ruse of Treated Wastewater for Irrigation Purpose

Phase-1

1. Project for reuse of Treated Waste Water from 35 No. STPs having cumulative capacity of 338.85 MLD in 21 districts has been sanctioned by Ministry of Agriculture & Farmers Welfare (MoA&FW), Govt. Of India under NABARD assisted MIF for INR 490.53 crore. This project will cover CCA of about 23,359 hectare through micro-irrigation and the entire project is to be executed upto 2023-24.

2. Out of 35 No. STPs, 27 No. STPs with cumulative capacity of 339.5 MLD have been found feasible from where TWW can be re-used for irrigation purpose.
3. Administrative Approval of these 27 No. STPs has been obtained from Govt.
4. Tender of 20 No. STPs stands approved till date.
5. Work on 16 No. STPs started at site.
6. Detail of these STPs showing physical progress, date of start & date of completion are as under:-

Latest status of 27 No. STPs taken up in phase-1 of "Project of re-use of Treated Waste Water for irrigation purpose through Micro-Irrigation"

Sr. No	Name of District	Name of STP	Capacity of STP(In MLD)	Status of Tender	Actual/Likely date of start work	Actual/Likely date of Completion	Status Yet to Start of Work

Phase-2

1. List of 57 No. STPs has been received from PHED for consideration in Phase-2 for the Project of re-use of Treated Waste Water for irrigation purpose through Micro-Irrigation.
2. The same list has already been endorsed to field functionaries to check the feasibility of these STPs for reuse of TWW for irrigation purpose.
3. Once the feasibility of these STPs for re-use of TWW for irrigation purpose is received from field functionaries, a detailed project will be submitted to NABARD for approval.

(b) Installation of community based solar/grid powered mirco-irrigation infrastructure in existing canal commands

Six communities based solar/grid powered mirco-irrigation facilities have been installed for Irrigation of 768 hectare land.

In order to implement project of Micro Irrigation (MI) speedily, Government has decided to adopt bottom up approach i.e. 100% consent of stakeholders (farmers) for adoption of MI system shall be taken before execution of the project. The farmers or group of farmers who come forward with the chak of minimum 25 acres to adopt micro irrigation in their fields and also give consent to provide land free of cost for construction of tank for storage of water as per requirement of the chak for micro irrigation activity, Government shall provide all infrastructures like: laying of pipelines, construction of storage tanks, solar pumps etc free of cost & 95% subsidy shall be provided to on-farm drip and sprinkler micro irrigation components. The web portal for online application of farmers has also been launched.

XVI. Demarcation of Floodplain and removal of illegal encroachments:

All the construction activities are banned on river Yamuna/Ghaggar Flood Plains and no encroachment on river Yamuna is allowed as per section 45 of Haryana Canal and Drainage Act, 1974. However, if any encroachment exists on river Yamuna/Ghaggar is immediately removed in accordance of this Act.

XVII. Maintaining minimum e-flow of river:

River Ghaggar

It is brought out that Ghaggar River is not a perennial river and discharge varies from zero to maximum during flood seasons. Around 15-20% of the lowest possible discharge in the lean season is required for maintaining E- flow. In our case the discharge varies from zero to maximum so maintaining E-flow is not possible. However, the monthly flow of all the major drains joining river Ghaggar is being measured regularly on

monthly basis.

River Yamuna

It has been reported by the Irrigation and Water Resources Department, Haryana that as per MoU dated 12.05.1994 signed among the States of UP, Haryana, Rajasthan, Himachal Pradesh & NCT of Delhi, a minimum discharge of 352 cusec water is released in Yamuna river from Hathnikund barrage at lean period also to maintain the E-flow of river which was in accordance with the guidelines of Ministry of Water Resources, River Development & Ganga Rejuvenation, Govt. of India in compliance of the order of Hon'ble NGT dated 11.06.2015. However, in case excess discharge is received at HKB (in monsoon seasons) in comparison to capacity of channel, then this excess discharge is released into river Yamuna through Somb Nadi and the indented supply is released in the channel.

XVIII. Plantation activities along the rivers:

River Ghaggar

Urban Estate Wise Plantation Done in HSVP Area
