**Proceedings of the Public Hearing for Project requiring clearance under Environmental Impact Assessment Notification, 14<sup>th</sup> September, 2006 (as amended) for Shifting of Common Biomedical Waste Treatment Facility (CBWTF) from village Kandela to village Shahpur, District Jind, by M/s Divya Waste Management Company on 29/11/2022 at 11:00 AM.**

The above project is required to obtain Environmental Clearance as this project is covered under amended EIA Notification dated 14<sup>th</sup> September, 2006 of the Ministry of Environment and Forest, Govt. of India, New Delhi. The project proponent have applied for the Environmental Clearance to State Environment Assessment Corporation (SEAC), Haryana and requested to conduct a public hearing. In this regard, an advertisement regarding public hearing notice for publication in leading Hindi and English Newspapers were published by Haryana State Pollution Control Board on 21.10.2022. The public hearing was conducted on dated 29/11/2022 under the Chairmanship of Sh. Manoj Kumar, IAS, Deputy Commissioner, Jind, Haryana and proceeded by Sh. Bhupinder Singh, Regional Officer, Haryana State Pollution Control Board, Regional Office, Kaithal. The attendance sheets of the officers and general public who attended the above said hearing are enclosed as **Annexure-A & B**. The CDs of video graphs of the entire public hearing are enclosed as **Annexure-C**.

**The following officers were present in the public hearing meeting.**

1. Sh. Manoj Kumar, IAS, Deputy Commissioner, Jind
2. Sh. Bhupinder Singh, Regional Officer, HSPCB, Kaithal
3. Sh. Vikash Kumar, JEE, HSPCB, Kaithal

Sh. Bhupinder Singh, Regional Officer, Haryana State pollution Control Board, Kaithal welcome the Deputy Commissioner, Jind with all other officers & general public present during the hearing and thereafter sought permission from the Chairman to start the Public Hearing. He briefed about the EIA notification dated 14.09.2006 and process of Public Hearing. He also requested the public to speak one by one and put up their question after the presentation of project and assured the public that their questions will be answered by the Project Proponents. Thereafter he asked the Project Proponent to give presentation of project. He informed to the general public that M/s Divya Waste Management Company who is already in operation at Village Kandela, District Jind has proposed to shift its plant to the village Shahpur District Jind. He further informed that M/s Divya Waste Management Company is a Common Biomedical Waste Treatment facility, catering hospitals of District Jind and District Sonipat. Thereafter, he invited the project proponent to briefly explain the details of the project.

Sh. Anand Dubey (EIA coordinator), Project Consultant, presented the case and explained about the proposed Common Bio Medical Waste Treatment Facility (CBWTF) of the project as detailed below:

The Project Consultant has informed that the biomedical waste treatment facility is catering the disposal of human waste in an incinerator through burning at a temperature upto 1000°C to 1200°C/1400°C prescribed in the law. The height of chimney, air pollution control devices to control the pollution from such type of facility has been defined by Ministry of Environment & Climate Change, Govt. of India/CPCB/HSPCB. He has further informed the following compliances to be made in the proposed CBWTF shifting project:-

1. Chimney of minimum 30 meters height will be provided.

94

## 2521440/2022/Planning Cell-HSPCB

2. The incinerator ash will be separated and will be disposed of through TSDF site.
3. Incinerator will be provided with adequate Air Pollution Control Device like venturi scrubber which will trap all the gases and pollutants and the waste water will be recycled and reused.

He informed that this proposed project will be established in about 9 kanal land. He informed that M/s Divya Waste Management Company at village Kandela is already catering health care facilities of districts namely Jind and Sonapat. The proposed project at Shahpur will treat and dispose of the bio medical waste generated from about 600 health care facilities from the above said two districts. All the waste from Health Care Facilities (HCF) will be collected and disposed off as per BMW Rules, 2016. There is no receptor in the vicinity of proposed site which will be affected by establishment of proposed site. The school is also more than 500 meters from the proposed site. The particulate matter from the chimney will be settled before 300 meters. The water requirement will be met from ground water for which application will be submitted to Haryana Water Resources Authority for ground water extraction. A DG set of capacity 70 KVA will be required for operating the incinerator during power cuts. The approved fuel i.e. LSHS will be used in the incinerator as per directions of CAQM for NCR districts. The capacity of incinerator, autoclave and shredder will be 100 Kgs/hour, 30 Kgs/hour and 100 Kgs/hour respectively. The Effluent Treatment Plant of 4.5 KLD capacity will be installed at proposed project site. The requirement of manpower (about 9 to 10) will be met through the existing plant already operating at village Kandela and will be shifted to proposed project. No fresh recruitment is required in the proposed project. Shredder will be operated in a closed room for avoiding any noise pollution. The project cost will be about Rs. 110 lakhs and 2% (about Rs. 2.1 lakhs) cost of the total project will be spent under Corporate Environment Responsibility (CER) for welfare of public in nearby schools, plantations etc. Project does not fall under CSR as per relevant Act.

**After the completion of Presentation by Project Consultant Regional Officer, HSPCB asked to raise their Queries/ suggestion by the officers and general public present during the hearing which are given as below:**

S. No.	Name	Questions/Suggestions	Reply
1	Sh. Manoj Kumar, IAS, Deputy Commissioner, Jind	DC, Jind suggested that Project Proponent to install gas based DG set as per the availability of gas in the district.	Sh. Ishwar Singh, Project Proponent agreed for the same and has assured for compliance will be done as per directions of Commission for Air Quality Management for NCR and Adjoining Areas, New Delhi.
2	Sh. Manoj Kumar, IAS, Deputy Commissioner, Jind	DC, Jind asked about the final disposal of treated effluent from ETP.	Project Consultant informed that the effluent generation for the plant will not be on higher side and it will be 4.5 KLD only. Sludge generated from ETP will be sent to TSDF. Treated effluent will be reused in venturi scrubber as makeup water and floor washing. No effluent will be discharged outside the premises.
3	Sh. Manoj Kumar, IAS, Deputy Commissioner, Jind.	DC, Jind asked about the segregation of biomedical waste in the premises.	Project Consultant has informed that no segregation will be done at the site and all the biomedical waste for incineration will come in closed bags which will be charged into incinerator directly. All the waste collected at site will be stored in closed room and the incineration ash will be sent to TSDF at Pali, Faridabad for final disposal.

4	Sh. Manoj Kumar, IAS, Deputy Commissioner, Jind.	DC, Jind has asked about the installation of real time online continuous emission monitoring device.	Sh. Ishwar Singh, Project Proponent informed that the real time online continuous emission monitoring device will be installed for its plant at the said site and the same has already been operational in existing plant at village Kandela.
5	Sh. Manoj Yadav, IAS, Deputy Commissioner, Jind.	DC, Jind suggested Project Proponent to construct the site following all the norms and will operate the plant not at the cost of environment.	Sh. Ishwar Singh, Project Proponent assured that all the rules and regulation will be followed diligently and no violation at any stage will be done by the unit.
6	Sh. Suraj Bhan, Village Shahpur	He informed during the public hearing that the land for the said plant has been given by him to the project proponent and is shared between many people.	Sh. Manoj Kumar, DC, Jind informed that the matter of revenue did not relates to this Public hearing and if there is any dispute w.r.t land it will be resolved as per law. Sh. Ishwar Singh, project proponent informed that the said land for plant has been purchased from Sh. Surajbhan and there is no dispute for the said land.

Thereafter, Regional Office, HSPCB, Kaithal again appealed to the general public present during the time of hearing to raise any more questions/suggestions w.r.t. the said project. No more question/suggestion asked by the public present during hearing and thereafter public hearing was ended with permission of the chair.

  
Bhupinder Singh,  
Regional Officer,  
HSPCB, Kaithal.

Submitted for kind approval please.

  
Ld Deputy Commissioner, Jind.

**Subject:** Report regarding checking of compliance status of Solid Waste Management Rules, 2016 by Municipal Committee, Safidon, Distt. Jind.

In compliance of Govt. order conveyed vide memo No. DULB/NGT/Sect-VI/2022/6296-6309 dated 07.11.2022, the constituted committee members i.e. Chief Engineer, Municipal Corporation, Karnal, Sh. Satish Sharma, Executive Engineer-II, Municipal Corporation, Karnal, Sh. Vipin Kumar, AEE on behalf of R.O. HSPCB, Jind reached in the office of Municipal Committee Safidon, Distt. Jind on 29.11.2022 at 10:00 AM for checking of compliance status of Solid Waste Management Rules, 2016. To conduct this inspection Secretary, Municipal Committee, Safidon was informed in advance vide this office letter No. 538/CE/MCK dated 25.11.2022 (Copy enclosed). Sh. Vikramjeet, Secretary (Addl. Charge) was not present there. Sh. Ajay Kumar J.E., Sh. Pardeep Sharma S.I. were present at the time of inspection. The constituted committee took the round of the city and visited the Solid waste dumping site. During inspection in the Safidon Town it is observed that sweeping job is being done well. The committee members did not find any GVP points in the city. The garbage collection points were cleaned, all garbage was lifted from the sites. The team members observed during site visit the job of sweeping and garbage collection and transportation is being done in good manner. The inspection report is as below in tabulated form:-

Sr. no.	Action points For Municipal Committee	Observation during visit of the town	Remarks
1	Segregation of waste at source	There is no segregation at source. Wet waste and dry waste is being collected from houses in mixed form. No household is separating wet waste and dry waste at source.	Work order for door to door collection, segregation, transportation and processing of waste in M.C. Safidon stands allotted to Sh. Virender Hooda, Contractor vide letter No. MCS/997 dated 14.09.2021 (Copy enclosed).
2 (a)	Manual Sweeping	There are 25 regular safai karamchari and 13 nos. on Palika Roll i.e. total 38 nos. manpower is deputed on sweeping job by M.C. Safidon. The job of night sweeping in some area of MC safidon has been outsourced vide work order No. MCS/1533/B dated 24.12.2021 to Virender Hooda, Contractor (Copy enclosed)	Sweeping job being done is satisfactory. No dirty road is seen in the town. 4 Nos. roads have been told being night swept. a) Jind road b) SDM road c) Old Chungi road up to Khaneshar Chowk. d) Railway road.

Page 1 of 5

  
 EE II

6 (d)	Remediation of legacy waste	<p>The work on bio remediation of legacy waste was in progress. One trammel is working at site. S.I. and J.E. M.C Safidon has submitted a data sheet showing 5599.185 MT legacy waste has been processed. Data sheet enclosed. They have claimed that 627.355 MT RDF has been given the Rekart copy of one such letter is given by them which is attached herewith. But after careful checking of the document it is revealed that there is neither dispatch number nor date marked by Rekart on this letter. This letter is even not emailed to the Secretary, M.C. Safidon. On further enquiry J.E. and S.I. M.C. Safidon could not produce any record which may establish that after taking the RDF from M.C. Safidon Rekart company has handed over the same to JBM Environment Management Pvt. Ltd. Sonapat. So it can not be said that the Rekart has processed the 627.355 MT RDF scientifically. The work of remediation and reclamation (Bio remediation of legacy waste) of waste of dump site near New Grain market ward No.-1, MC Safidon is allotted to Sh. Virender Hooda, Contractor vide letter No. 729 dated 02.08.2022 (Copy enclosed)</p>	
6 (e)	Authorization of Waste pickers	<p>During site visit at dumping point it is told by contractual agency he himself has registered 8 nos. rag picker and ID card is issued to them but it is admitted by the staff of MC Safidon that they have not registered any rag pickers for collecting recyclable items.</p>	

*[Handwritten Signature]*  
 BBT

*[Handwritten Initials]*

6 (f)	Number of compost pits provided for processing and management of Horticulture waste	No pit is provided till now.	
6 (g)	Identification of garbage vulnerable points (GVPs)	There are 3 nos. locations from where garbage is lifted daily upto 11:00 AM as claimed by staff of MCS. The location of secondary points is mentioned above. No dustbin of 3 cum/1 cum is seen in the town.	
6 (h)	No. of parks within Municipal limits, No. of compost pits required in Parks, No. of compost pits provided in the parks.	2 Nos. parks are there. No composting pits are prepared in the parks for composting green waste. All green waste is being sent to dump site.	
7	C&D Waste management	There is no management regarding C&D waste.	
8	Bio Medical waste management	As per their statement they have hanged a Jute bag on all tippers for collecting bio medical waste.	
9	E-waste management	-do-	
10	Air quality management	No water tanker is there or engaged through contract for sprinkling water on berms/edges of metal road to suppress dust emission.	
11	Saptage management	No sucker tanker is registered till now.	

**Conclusion :-** As on the date of inspection it is observed that SWM Rules, 2016 are being complied with partially. There is need of regular monitoring by Secretary, MC and President, MC intermittently. There is no clarity/record available, whether RDF collected by Rekart from the site is really given to JBM (waste to Energy Plant at Tajpur, Murthal) for scientifically end disposal or misused elsewhere. The compost generated till now from bio remediation is dumped on the low laying plot sites of the HSVP near to dumping site in sector-2 of HSVP. The inert collected from bio remediation is also dumped at the same site which get mixed with compost, whereas inert is required to be dumped in SLF site. There is no SLF site land with the MCS. The fresh waste is also dumped very near to legacy waste at same dumping site just across the road. The position is shown clearly in the photos. The photos of the dumping site is attached herewith. The fresh waste is being collected in mixed form.

Copy

BEO

Page 4 of 5

*[Signature]*

Suggestions :-

1. Regular and strict monitoring of the work of legacy waste is required by higher authorities. It should not be left only on the part of J.E. & S.I.
2. There is need to manage scientifically end disposals of all fractions i.e. compost, RDF, inert and C&D waste coming out from bio remediation of legacy waste.
3. There is need to manage fresh waste being collected in mixed form instead of segregated form which can be managed through IEC activities, public participation, educative seminars with school children and students of colleges, involvement of RWAs and social workers etc.
4. Construction of composting pits in parks for managing green waste and in schools, colleges or any other institutions for managing their green waste at source.
5. Implementation of in house composting upon bulk waste generators to manage their wet waste at source.
6. Deployment of water tankers for suppressing dust pollution particularly on Asandh road and other major roads of the town (Jind Bye-pass road, Jind road).
7. There is need to identify and earmark C&D waste site and to manage it under C&D Waste Management Rules, 2020.
8. There is a need to identify and earmark at least 2 Acre land for setting up bio remediation treatment plant, wet composting/ bio mathenization plant on MCS owned land.
