## Proceedings of the Public Hearing

**Proceedings of the Public Hearing for Project requiring clearance under Environmental Impact Assessment Notification, 14<sup>th</sup> September, 2006 (as amended Implementation of Remediation and Reclamation of Existing Dumpsite and construction, operation and maintenance of Sanitary Landfill at Village Ramsinghpura, Rewari Haryana by Municipal Council, Rewari on 07/08/2023 at 11:00 AM.**

It is submitted for your kind information and further necessary action please.

DA 1. Copy of attendance sheet of public present during the hearing.

2. Copy of attendance sheet of officer's present during the hearing.

3. Soft copy (Pen Drive) of proceedings of public hearing.

4. Photographs of the public hearing.

5. Copy of question/suggestion/problem submitted by people

Approved copy of proceeding of hearing by Ld. ADC, Rewari.

The above project is required to obtain the Environmental Clearance as this project is covered under amended EIA Notification dated 14<sup>th</sup> September, 2006 of the Ministry of Environment and Forest, Govt. of India, New Delhi. The project proponent has applied for the Environmental Clearance to MoEF&CC, Government of India and requested to conduct a public hearing. In this regard, an advertisement regarding public hearing notice for publication in leading Hindi and English Newspaper was published by Haryana State Pollution Control Board (**Annexure-A**). The public hearing was conducted on dated 07/08/2023 under the Chairmanship of Sh. Swapnil Ravindra Patil, Additional Deputy Commissioner, Rewari, Haryana and along with other officers from respective departments. The attendance sheets of the officers and general public who attended the above said hearing are enclosed as **Annexure-B&C**. The Pen Driver of videography of the entire public hearing are enclosed as **Annexure-D**.

### **The following officers were present in the public hearing meeting.**

1. Sh. Swapnil Ravindra Patil, Additional Deputy Commissioner, Rewari
2. Sh. Uday Singh, District Municipal Commissioner
3. Sh. Vinod Kumar Balyan, the then Regional Officer, HSPCB, Rewari Region
4. Sh. Naresh Kumar, Municipal Engineer
5. Sh. Sandeep Kumar, Chief Sanitary Inspector
6. Sh. Sunil Kumar, Junior Engineer
7. Sh. Mohit, Clerk, O/o Joint Director, DIC, Rewari
8. Sh. Anil Kumar, FI, DTP, Rewari

Sh. Vinod Kumar Balyan, Regional Officer, Haryana State pollution Control Board, Rewari welcomed the Chairman-cum-Additional Deputy Commissioner, Rewari with all other officers & general public present during the hearing and thereafter sought permission from the Chairman-cum-Additional Deputy Commissioner to start the Public Hearing. He briefed about the EIA notification dated 14.09.2006 and process of Public Hearing. He also requested the public to speak one by one and put up their question/suggestion/problem after the presentation of project and assured the public that their questions will be answered by the Project Proponent. Thereafter he asked the Project Proponent to give presentation of project.

Environmental Consultant Dr. Dharna Tiwari (EIA coordinator) presented the case and explained about the proposed Remediation and Reclamation of Existing Dumpsite, Rewari project as detailed below:

Municipal Council the "Authority" intends for Implementation of Remediation and Reclamation of Existing Dumpsite and construction, operation and maintenance of Sanitary Landfill at Village Ramsinghpura Rewari, Haryana. The proposed project is to manage the existing legacy waste via sanitary landfill, composting and Material Recovery Facility (MRF). This land where Bawal dumpsite is located is owned by Municipal Council, Rewari and has been used for open dumping of mixed MSW since the years. About 0.6 lakh tons of MSW has already been deposited at the Dumpsite. The main solid waste generation sources are residential, commercial and institutional establishments, vegetable and meat markets, hospitals, hotels and restaurants, and construction and demolition waste (debris). Total area of the project is 14.625 Acres and approx estimated expected project life is 1 year. Total Project Cost is 4.02 Crore. Under CER notification dated 1<sup>st</sup> May 2018, the Municipal Council shall spend 2% of its project cost, which comes Rs. 8 lakhs 4 thousands; this will fulfill public demand and bring overall improvement of the locality and shall be spent for overall development of the locality and local people. Some of the community developments plans shall also be considered by the Project Developer as part of corporate social responsibility.

After the completion of Presentation by Environmental Consultant, Regional Officer, HSPCB asked the general public to raise their Queries/ suggestion which are given as below:-

S. No.	Name	Village	Question	Reply submitted by Project Proponent through Email dated 25.08.2023 (copy attached)
1	Ramkrishna	Mahasachiv, Ramsinghpura	No fresh waste should be disposed off at the existing dumpsite as nearby, there is presence of residential zone and existence of court so the site should be cleared immediately. We are not against the development but in place of development, the site is getting destroyed and we are not at all in favour of the same. Shift the site in any other sub district of Rewari.	<p>It was assured by the PP that there will be no mixing of fresh waste with the existing deposited waste and we are conducting the public hearing and completing the procedure of EIA notification dated 14.09.2006 to clear the site without further delay.</p> <p>As per the EIA notification the site will be properly treated as per the rules mentioned in SWM rules 2016. Wastes shall be covered immediately or at the end of each working day with minimum 10 cm of soil, inert debris or construction material. Proper intermediate cover/ monsoon cover and final cover shall be comprised.</p> <p>All reasonable steps shall be taken to ensure that there should be control of odour, dust and treatment generated leachate, flies, rodents and bird menace in and around the Dumpsite. Herbal/biological sanitizers will be sprayed over the waste.</p> <p>Discharge from the site will be treated in the proposed LTP.</p> <p>Regular sprinkling of water shall be done in the project area to suppress the dust.</p> <p>The scientific processing &amp; disposal of MSW in SLF will reduce the emission of harmful/disease causing gases in the environment. Any emission for discharge from the project will be as per HSPCB/CPCB norms and will not cause any harmful impact on environment or residence of the area.</p>
2	Mahindra Shukla	Ramsinghpura	Remove the dumping yard from here and make any hospital, stadium or educational institute at this location to ensure the public. Due to dumping of solid waste at this site, the residents of the area are victim of its pollution for the last 8 years.	<p>It was assured by the PP that this is an existing dumpsite where proper treatment will be done for improving the situation. Following processes will be adopted like composting, sanitary landfill at site and RDF &amp; recycling material to the appropriate vendor.</p>

3.	H.N Singh	Advocate, Ramsinghpura Rewari	<p><input type="checkbox"/> Within 500m radius area there is existence of minimum 18 villages and their population is more than 40,000-50,000 who all are suffering from this dumpsite</p> <p><input type="checkbox"/> The cost of this land is more than 70 crores and Municipal Council has converted this precious land into the dumpsite</p> <p><input type="checkbox"/> Now onwards we won't allow any tractor any dumper to dispose the waste at this dumping site.</p> <p><input type="checkbox"/> Nearby villages there is existence of minimum 50-60 cancer patients due to the presence of this existing dumpsite.</p> <p><input type="checkbox"/> Near the site all residential zone area is available which is suffering from eye irritation, breathing problem etc. from this dumpsite</p> <p><input type="checkbox"/> Existing dumpsite is the land of Municipal Council, Rewari of Rs.70 crores, it is not for disposing waste from Manesar which is 80km from the site, Mahendragarh which is 42km from the site, Dharuhera which is 46 km from the site and all nearby 8 villages are not even allowed to throw their waste at this dumping site.</p> <p><input type="checkbox"/> This more than Rs.100 Crores of Land is not for disposing of waste.</p> <p><input type="checkbox"/> As per the current situation no amount has been invested at the site as there is no presence of any retaining wall or till now no machines has been used at the site.</p> <p><input type="checkbox"/> Public is not in favour of establishment of the project at this site and public said we won't allow to establish the site in any case.</p>	<p>PP said that this is an existing dumpsite where proper treatment will be done for improving the situation immediately. Following processes will be adopted like composting, sanitary landfill, RDF &amp; recycling material handed over to the appropriate vendor to treat the waste.</p> <p>The proposed facility will be established to comply with SWM rules 2016 and as per the CPCB guidelines of legacy waste and CPHEEO manual.</p> <p>To prevent fire incidents, the following rules have to be applied:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Fire extinguishers shall be used immediately.</li> <li><input type="checkbox"/> Handling material on fire as well as setting fire to materials on the landfill will be strictly forbidden.</li> <li><input type="checkbox"/> All mobile equipment or vehicles should be furnished with a fire extinguisher.</li> <li><input type="checkbox"/> Alarm signals should be heeded.</li> </ul> <p>A thick green belt will be developed along the periphery of the proposed project which will limit odour and provide habitat to small birds and mammals.</p> <p>Regular sprinkling of water shall be done in the project area to suppress the dust.</p> <p>The scientific processing &amp; disposal of MSW in SLF will reduce the emission of harmful/disease causing gases in the environment. Any emission for discharge from the project will be as HSPCB/CPCB norms and will not cause any harmful impact on environment or residence of the area.</p>
4.	VijendraChauhan	Odhi	<p>Remove the dumping site as it creates problem of flies, rodents, smell etc immediately. We are not at all in favour of this site and the site won't be cleared then we'll go on strike for the same.</p>	<p>Reasonable steps shall be taken to ensure that there is control of odour, dust and treatment generated leachate, flies, rodents and bird menace in and around the Dumpsite. Herbal/biological sanitizers will be sprayed over the waste. All the issues of existing dumpsite shall be ended up at the earliest.</p> <p>A thick green belt will be developed along the periphery of the proposed project which will limit odour and provide habitat to small birds and mammals.</p> <p>Regular sprinkling of water shall be done in the project area to suppress the dust.</p>

5	Sunil Chauhan	Sarpanch Sanjarpur	The existing dumpsite is actually creating lots of issues like increase of disease, regular increase of flies and rodents, no one even comes for marriage purpose due to the smell and pollution of existing dumpsite. We'll go on revolution if you won't shift this site immediately.	<input type="checkbox"/> Objective of Proposed sanitary landfill site is to reduce and convert the existing waste to RDF and Composted fertilizer. This process will reduce odour problem. <input type="checkbox"/> The scientific processing & disposal of MSW in SLF will reduce the emission of harmful/disease causing gases in the environment. Any emission for discharge from the project will be as per HSPCB/CPCB norms and will not cause any harmful impact on environment or residence of the area.
6	Satish Kumar	Sanjarpur	Due to the presence of this dumping site fire/smoke and smell problem always exist at site.  Smell from this dumping yard is spreading upto 20km of the area.	The PP ensured that immediately the action shall be taken at site.  <input type="checkbox"/> All mobile equipment or vehicles should be furnished with a fire extinguisher. <input type="checkbox"/> Every fire has to be reported immediately. <input type="checkbox"/> The preservation and protection of lives and health have priority over firefighting. <input type="checkbox"/> Alarm signals should be heeded. <input type="checkbox"/> Herbal/biological sanitizers will be sprayed over the waste. <input type="checkbox"/> Thick green belt will be provided along the internal roads and plant boundary which will limit the spread of dust and odour.
7	Dharam SinghKundu	Ramsinghpura	<input type="checkbox"/> Go and visit the site it's so tough to even stand there, no one can even breathe due to presence of bad smell and presence of flies and rodents at the site. <input type="checkbox"/> Continuously gases are releasing at site. <input type="checkbox"/> Chemicals are also disposed at the site.	The PP assured that we have full concern with the existing situation and we are taking the step just to reduce the problem immediately. Herbal/biological sanitizers will be sprayed over the waste to reduce the odour and site will be treated immediately to clear the existing problems.  The scientific processing & disposal of MSW in SLF will reduce the emission of harmful/disease causing gases in the environment. Any emission for discharge from the project will be as HSPCB/CPCB norms and will not cause any harmful impact on environment or residence of the area.
8	AnandChauhan	Ramsinghpura	He said government always do challan for creating pollution so why no constraint is available at this existing dumpsite.	It was assured by PP that all the issues of existing dumpsite shall be ended up at the earliest.

Thereafter, Regional Office, HSPCB, Rewari Region again appealed to the general public present during the time of hearing to ask any more questions/suggestions regarding the said project. No more question/suggestion asked by the public present during hearing and thereafter public hearing was ended with permission of the Chairman.

  
Regional Officer, HSPCB  
Rewari Region

  
Ld. Additional Deputy Commissioner, Rewari

सेवा में,

श्रीमान उपायुक्त महोदय,

रेवाडी, जिला रेवाडी।

विषय:-

हरियाणा राज्य प्रदूषण नियंत्रण विभाग रेवाडी के कार्यालय के पत्र क्रमांक HSPCB/1/168226/2023 Dated 05.07.2023 के संदर्भ में रामसिंहपुरा डम्पिंग यार्ड से होने वाली परेशानी, असुविधाओं व गन्दगी, प्रदूषण, जहरीली गैसों की वजह से जीवन स्तर में हो रही कमी के संदर्भ में।

श्रीमान जी,

सविनय निवेदन है कि हम निवासीगण ग्राम रामसिंहपुरा, ओढी, चान्दूवास, रसियावास, सांजरपुर, आनन्दपुर, साबन, आसरा का माजरा, जयसिंहपुर खेडा, मोहनपुर, बालावास, मैरामपुर भडंगी तहसील व खण्ड बावल जिला रेवाडी हरियाणा के रहने वाले हैं।

यह कि नगर पालिका रेवाडी व बावल द्वारा रामसिंहपुरा गांव में काफी सालों से कूड़ा डाला जा रहा है, इसके समाधान बारे हरियाणा राज्य प्रदूषण नियंत्रण विभाग रेवाडी द्वारा अपने कार्यालय का पत्र क्रमांक HSPCB/1/168226/2023 Dated 05.07.2023 जारी किया गया, जिसमें श्रीमान उपायुक्त महोदय रेवाडी को रामसिंहपुर डम्पिंग यार्ड की वजह से हो रही असुविधा, परेशानी व इसका समाधान करने बाबत जन सुनवाई दिनांक 07.08.2023 को मौके पर करने हेतु जारी किया गया। हम रामसिंहपुरा डम्पिंग यार्ड की वजह से होने वाले समस्याओं की ओर आपका ध्यान दिलवाने की कोशिश कर रहे हैं। यह कि लगभग आस-पास गांवों में 24,000 से अधिक आबादी है, यहां डाले जाने वाले कूड़े से सब परेशान है तथा इस कूड़े व गन्दगी की वजह से कैंसर मरीजों की संख्या दिन-प्रतिदिन बढ़ती जा रही है, जिसका कारण कचरे में वनने वाली मीथेन गैस है, जिसकी वजह से 100 के आस-पास मृत्यु हो चुकी है। कई बार हमने सरकार का ध्यान इस ओर दिलाने की कोशिश की, लेकिन कोई सुनवाई नहीं की गई। यह कि दिनांक 18 सितम्बर 2018 को उपायुक्त महोदय रेवाडी को ज्ञापन दिया तथा 2017 में उपमण्डल अधिकारी (ना.) बावल को भी ज्ञापन दिया था, लेकिन कोई सुनवाई नहीं की। रामसिंहपुरा डम्पिंग यार्ड में गन्द के साथ गौवंश भी यहां डाले गए, जिस पर ग्रामनिवासीयों द्वारा धरना भी दिया गया। लेकिन बलपूर्वक लोगों को हटा दिया गया।

नगर पालिका द्वारा दिए गए मानक पूरी तरह गलत है, जिनका विवरण इस प्रकार है:-

1. नैशनल हाईवे (एन.एच.48) 200 मीटर दूरी तय है, लेकिन यहां सर्विस रोड पर ही कूड़ा डाला जा रहा है, जिसकी वजह से रोज एकसीडेन्ट होते हैं, गन्दगी फैलती है, जो मौके पर देखी जा सकती है, लोगों का यहां रहना मुश्किल हो रहा है, हाईवे पर निकलने वाले वाहनों को अपना मुंह ढककर निकलना पड़ता है, आप स्वयं मौके पर इसको देख सकते हैं।

- ग्राम रामसिंहपुरा, रसियावास, ओढी का रिहायश क्षेत्र व बोरवैल व रसियावास, रामसिंहपुरा, ओढी के सरकारी स्कूल लगभग 900 मीटर की दूरी पर है, लोगो का घरो में रहना, बच्चो का स्कूल में पढने जाना दुभर हो गया है। स्कूल के बच्चे इस गन्दगी वजह से बीमार हो रहे है।
- कचरे से निकलने वाले Chemical खेतों में जाता है, जिससे फसल की गुणवत्ता व जमीन की उर्वरक क्षमता खत्म हो चुकी है, अगर ऐसे ही चलता रहा तो आस-पास की जमीन की उर्वरक क्षमता खत्म हो जायेगी व भू जल-स्तर समाप्त हो जायेगा।
- Air Quality, PM 2.5, PMIO सब खतरे के लेवल से उपर है।
- राजकीय महाविद्यालय व सरकारी अस्पताल डम्पिंग यार्ड से 1.5 कि.मी की दूरी पर है, जहां तक इसकी गन्ध आती है, मरीज जो अस्पताल में अपना ईलाज करवाने आते है, वो इस गन्दगी की वजह से भी बीमार हो रहे है। अगर ऐसा ही चलता रहा तो लोगो को यहां से पलायन होने पर मजबूर होना पडेगा।

अतः आपसे निवेदन है कि इस पर संज्ञान लेते हुये शीघ्र समाधान करवाया जाये ताकि होने वाली भयंकर बीमारीयो, परेशानी से निजात मिल सके व हम सुखपूर्वक अपना जीवन-यापन कर सके। जनाब की अति कृपा होगी।

दिनांक .....

प्रार्थीयान,

*Vinay Kumar*

Ref. No.

Dated.....7/8/23.....

सेवा में

Pollution chief  
हरिभावा सरकार।

विषय:- चूआ से राहत पाने वारे:-

श्रीमान् जी,

सविनय निवेदन यह है कि सांजरपुर वाले रोड पर एक ईटों का नमूदा लगा हुआ था। अब यह ईटों का नमूदा बन्द हो चुका है। उस नमूदे में रोडियों का प्लांट लगा हुआ। उस प्लांट की चिखनी से बहुत ही जहरीला चूआ निकलता है जिससे आस-पास के गाँव के व्यक्तियों को श्वास लेने में परेशानीयों का सामना करना पड़ रहा है। आस-पास के गाँवों में विभागीय जलने का खतरा बना हुआ। आपसे नम्र निवेदन यह है कि आप स्थल को यहाँ से हटवाने का रुख करें।

## **NOTICE FOR PUBLIC HEARING**

It is for the information of concerned that Municipal Council Rewari has proposed a project regarding implementation of Remediation and Reclamation of Existing Dumpsite and construction, operation and maintenance of Sanitary Landfill at Ramsinghpura village, Rewari, Haryana and going to conduct of Public Hearing for obtaining Environmental Clearance.

The project proponent mentioned above has applied to the Haryana State Pollution Control Board for conducting the Public Hearing for obtaining Environmental Clearance as per EIA notification dated 14th September, 2006 for the proposed project. Accordingly, the Public Hearing for the above said project has been fixed on **07.08.2023 at 11.00 a.m.** at village Ramsinghpura, District Rewari Haryana.

Copies of executive summary of the project report and EIA study report, submitted by the project proponent, are available in the Head Office of the Board and on the website of the Board i.e. <https://hspcb.org.in/> as well as in the following offices, which can be perused during office hours, on any working day:-

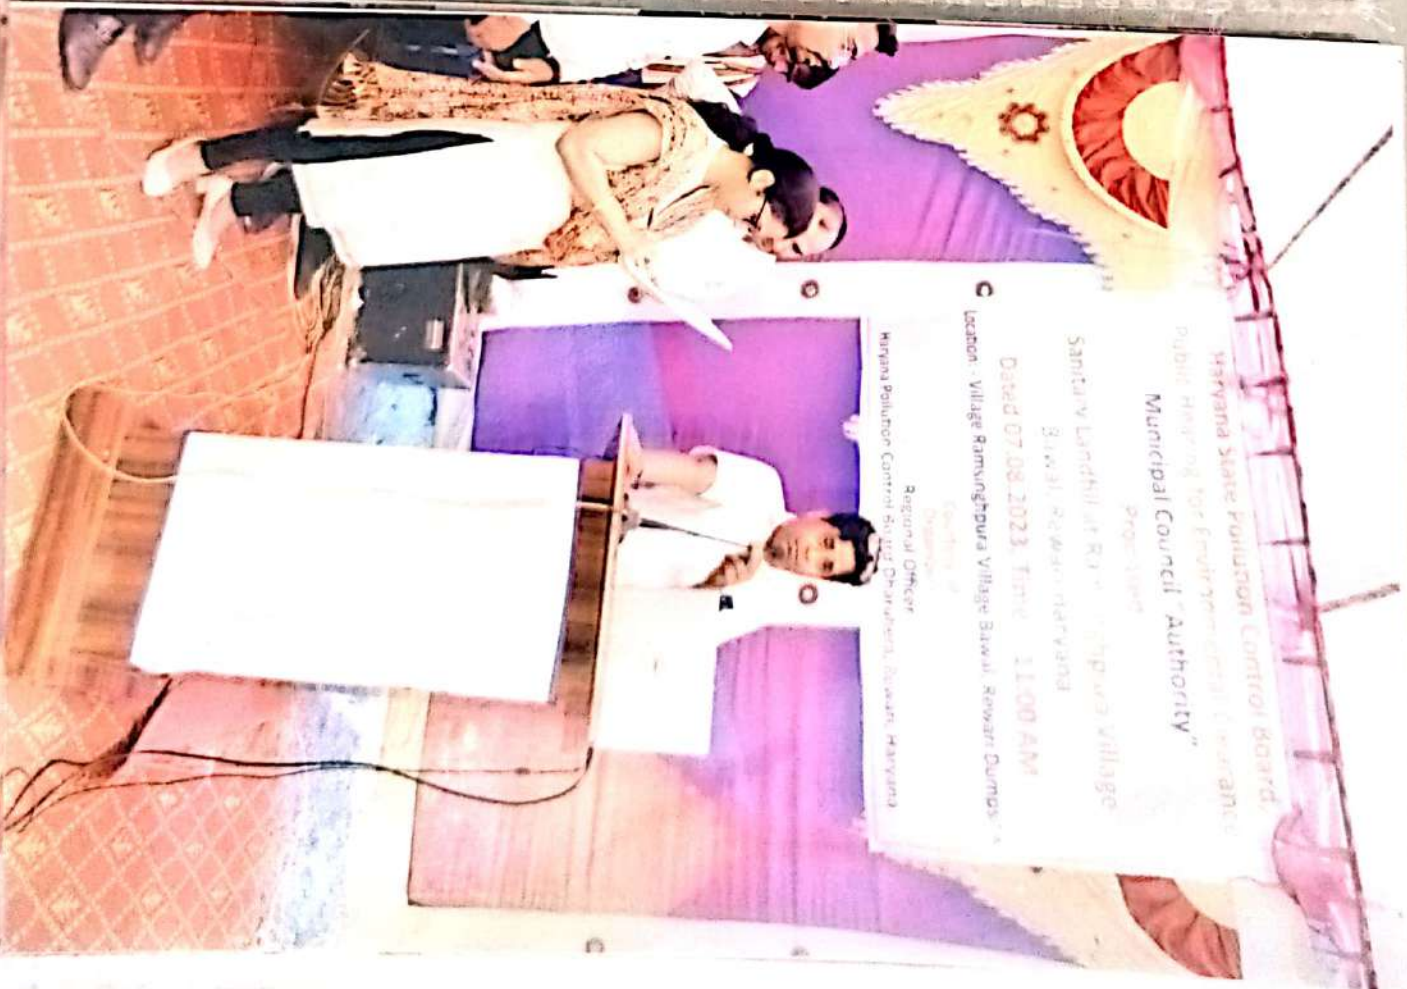

1. Deputy Commissioner, Rewari.
2. Chairman, Zila Parishad, District Rewari.
3. Executive Engineer, Municipal Council, Rewari.
4. Joint Director, District Industries Centre, District Rewari.
5. Regional Officer, Rewari, Haryana State Pollution Control Board, SCO D-6 & D-7, Suncity Commercial Complex, Sector-6, A- Block, Rewari.

Notice is hereby given to all concerned to file suggestions, views, comments and objections, if any, on the above said proposed project, to the Chairman, Haryana State Pollution Control Board, C-11, Sector-6, Panchkula as well as Regional Officer, Rewari, Haryana State Pollution Control Board, at SCO D-6 & D-7, Suncity Commercial Complex, Sector-6, A- Block, Rewari i.e. within 30 days of the publication of this notice. Besides, a Public Hearing will also be held on the Date, Time & Venue mentioned above at the proposed site of the project, which can be attended by any person including Environmental Groups, bona fide residents and others, located at the project site/sites of displacement/sites likely to be affected. Oral/Written suggestions, if any can also be made during the Public Hearing.

**No TA/DA will be admissible for attending the Public Hearing.**
