Enclosure - I

### Extended Producer Responsibility 2016 PLAN

#### **1. Take Back on product reaching the end of life from consumer/end users.**

Those customer who want to return their product after end of life can contact Daikin Customer Care centre and such unit will be collected from the customer or the customer will be asked to send to the nearest dealers or collection centre on "To Pay" basis. Due value towards the same may also be given to customers so as to encourage them to come forward to enable disposal of their end of life E-waste in an environmentally friendly manner.

#### **2. Running Exchange Programmes.**

Exchange of old Airconditioners with new will be done by running exchange programs. Attractive exchange Programs would be designed to encourage customers to give their old and end of life units in exchange for handsome reduction in the price of the new products.

#### **3. Tie Up with PRO's (Producers Responsibility Organisation).**

Daikin plans to tie up the PRO which will make arrangements to-

1. Collect and channelize of e-waste generated in repairing activity and 'end of life' of the product.
2. Create all round awareness through publications & information dissemination.
3. Maintain records & file annual returns.

## Annexure- VI

### Point No. 8(vii) – Estimated Budget on EPR for ROHS testing

At Daikin we are procuring material from our vendors & it is only the assembly which is being done at our end i.e. as such we are not processing the materials directly. However we are obtaining certificates from our Vendors that the material supplied by them is RoHS compliant. Therefore we are not directly incurring any cost on ROHS testing per se and hence in the budget the cost has been shown as NIL.
