Proceedings of the Public Hearing for Project requiring clearance under Environmental Impact Assessment Notification, 14th September, 2006 (as amended) for Remediation and Reclamation of Existing Dumpsite and construction, operation and maintenance of "Sanitary Landfill" at Village- Matana Fatehabad Haryana by Municipal Council Fatehabad on 31/03/2023 at 11:00 AM.

Please find enclosed herewith the Proceedings of the Public Hearing for Project requiring clearance under Environmental Impact Assessment Notification, 14th September, 2006 (as amended) for Remediation and Reclamation of Existing Dumpsite and construction, operation and maintenance of "Sanitary Landfill" at Village Matana, Fatehabad, Haryana by Municipal Council Fatehabad, for kind approval please.

Regional Officer,
HSPCB, Hisar Region

Ld. Additional Deputy Commissioner,
Fatehabad

Proceedings of the Public Hearing

Proceedings of the Public Hearing for Project requiring clearance under Environmental Impact Assessment Notification, 14th September, 2006 (as amended Remediation and Reclamation of Existing Dumpsite and construction, operation and maintenance of "Sanitary Landfill" at Village Matana Fatehabad Haryana by Municipal Council, Fatehabad on 31/03/2023 at 11:00 AM.

It is submitted for your kind information and further necessary action please.

DA 1. Copy of attendance sheet of public present during the hearing.

2. Copy of attendance sheet of officer's present during the hearing.

3. Soft copy (CDs) of of videography of public hearing.

4. Photographs of the hearing.

The above project is required to obtain the Environmental Clearance as this project is covered under amended EIA Notification dated 14th September, 2006 of the Ministry of Environment and Forest, Govt. of India, New Delhi. The project proponents have applied for the Environmental Clearance to SEAC Haryana, Government of India and requested to conduct a public hearing. In this regard, an advertisement regarding public hearing notice for publication in leading Hindi and English Newspaper was published by Haryana State Pollution Control Board. The public hearing was conducted on dated 31/03/2023 under the chairmanship of Sh. Ajay Chopra, Additional Deputy Commissioner, Fatehabad, Haryana and along with other officers from respective departments. The attendance sheets of the officers and general public who attended the above said hearing are enclosed as **Annexure-A & B**. The CDs of videography of the entire public hearing are enclosed as **Annexure-C**. The copies of photographs of public hearing enclosed as **Annexure-D**.

The following officers were present in the public hearing meeting.

1. **Sh. Ajay Chopra, Additional Deputy Commissioner, Fatehabad**
2. **Sh. Shakti Singh, Regional Officer, HSPCB, Hisar Region**
3. **Sh. Sushil Mangla, BD & PO, Representative of District Development and Panchayat Officer, Fatehabad**
4. **Sh. Deepak representative of Joint Director, District Industries Centre, Fatehabad**
5. **Sh. Amit Kumar Sharma, Executive Engineer, MC Fatehabad.**
6. **Sh. Rishi, Executive Officer, MC Fatehabad.**
7. **Sh. Raman Kumar, ATP, representative of DTP, Fatehabad.**
8. **Dr. Sunil Sheoran, Scientist B, HSPCB, Hisar Region.**

Sh. Shakti Singh, Regional Officer, Haryana State pollution Control Board, Fatehabad welcome the Additional Deputy Commissioner, Fatehabad with all other officers & general public present during the hearing and thereafter sought permission from the Chairman to start the Public Hearing. He briefed about the EIA notification dated 14.09.2006 and process

of Public Hearing. He also requested the public to speak one by one and put up their question after the presentation of project and assured the public that their questions will be answered by the Project Proponent. Thereafter he asked the Project Proponent to give presentation of project.

Environmental Consultant Dr. Dharna Tiwari (EIA coordinator) presented the case and explained about the proposed Remediation and Reclamation of Existing Dumpsite and construction, operation and maintenance of "Sanitary Landfill" project as detailed below:

Municipal Council the "Authority" intends for Implementation of Remediation and construction, operation and maintenance of Sanitary Landfill at Village Matana, Fatehabad Dumpsite ("Sanitary Landfill Site"). As per the current estimates (2021) of the Municipal Council Fatehabad, about 31.38 tons of solid waste is generated daily in Fatehabad. The main solid waste generation sources are residential, commercial, food markets, religious place and street sweeping.

After the completion of Presentation by Environmental Consultant Regional Officer, HSPCB asked the general public to raise their Queries/ suggestion which are given as below:

S. No.	Name	Village	Question	Reply
1	Dalbir Shastri, Sarpanch	Matana	Fire problems exist in the existing sanitary land fill area	To prevent fire incidents, the following actions will be taken: ❖ Handling material on fire as well as setting fire to materials on the landfill is strictly forbidden ❖ All mobile equipment or vehicles should be furnished with a fire extinguisher. ❖ Alarm signals should be heeded.
2.	Dalbir Shastri, Sarpanch	Matana	Remove the existing problem of flies, rodents, smell etc immediately.	Reasonable steps shall be taken to ensure that there is control of odour, dust and treatment generated leachate, flies, rodents and bird menace in and around the Matana Dumpsite. Herbal/biological sanitizers will be sprayed over the waste. All the issues of existing dumpsite shall be ended up at the earliest.

				<ul style="list-style-type: none"> •A green belt of 1.61 acre (50%) of the area will be developed along the periphery of the proposed project which will limit odour and provide habitat to small birds and mammals.
3	Dalbir Shastri, Sarpanch	Matana	The existing dumpsite is actually creating lots of issues like increase of disease, regular increase of flies and rodents.	<ul style="list-style-type: none"> ❖ Objective of Proposed sanitary landfill site is to reduce and convert the existing waste to RDF and Composted fertilizer. This process will reduce odour problem. ❖ The scientific processing & disposal of MSW in SLF will reduce the emission of harmful/disease causing gases in the environment. ❖ Any emission for discharge from the project will be as per HSPCB/CPCB norms and to avoid harmful impact on environment or residence of the area.
4	Dalbir Shastri, Sarpanch	Matana	There should be facility of pucca road near the site.	Yes, Internal roads will be concreted / asphalted to reduce dust emissions; Thick green belt will be provided along the internal roads and plant boundary which will limit the spread of dust and odour.
5	Raj kumar	Matana	There should be provision of CCTV at the site.	Agreed the CCTV facility should be provided at site to monitor the activity at project site.
6	Vijay	Matana	What will be the personal protective safety measures and health concern should be provided for the labours.	<ul style="list-style-type: none"> ❖ Safety boots, helmets, gloves, ear protectors, mask shall be provided for their safety. ❖ The landfill workers should be trained in first aid, so that they themselves can properly provide first aid. ❖ Considering the specific

				conditions at a sanitary landfill, it is strongly recommended that landfill staff working on a regular basis be trained on first aid.
--	--	--	--	---

After this Sh. Shakti Singh, Hisar Regional Officer mentioned that the said project has to comply with the following conditions:-

1. The MC Fatehabad will pay the applicable Environmental Compensation in compliance of the order dated 16.04.2021 of Hon'ble NGT in OA No. 612 of 2019 titled as Vinod Kumar Bansal V/s State of Haryana.
2. The HSPCB will initiate credible action under provisions of the Environment (Protection) Act, 1986 against responsible officers of the urban local bodies department for the non-compliances at Sanitary Landfill site at Matana, Fatehabad.
3. Greenbelt will be developed in the periphery of the project site in 3 tier under the supervision of the DFO Fathabad which will be cover ~30% of total project area under plantation.
4. Consent to Establish/Operate for the project shall be obtained from the state Pollution Control Board as required under the Air (Prevention and Control of Pollution) Act, 1981 and the Water (Prevention and Control of Pollution) Act, 1974.
5. No fresh water to be used except for potable use.
6. Ground water monitoring for physic- Chemical parameters to be carried out and record maintained by providing piezometric wells along the flow channel (up and down)..
7. The depth of the land fill site shall be decided based on the ground water table at the site.
8. Pre medical check up to be carried out on workers at the time of employment and regular medical record to be maintained.
9. Emergency plan shall be drawn in consultation with SPCB/CPCB and implemented in order to minimize the hazards to human health or environment from fires, explosion or any unplanned sudden or non sudden release of hazardous waste or hazardous waste constituents to air, soil or surface water.
10. Rainwater runoff from the landfill area shall be collected and treated in the effluent treatment plant.
11. The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g., PM₁₀ and PM_{2.5} in reference to PM emission, and SO₂ and NO_x in reference to SO₂ and NO_x emissions) within and outside the plant area at least at four locations (one within and three outside the plant area at an angle of 120° each), covering upwind and downwind directions.
12. The Company shall ensure proper handling of all spillages by introducing spill control procedures for various chemicals.
13. All leachates arising from premises should be collected and treated in the ETP followed by RO. RO rejects shall be evaporated in MEE. Toxicity Characteristic

Leaching Procedure (TCLP) test to be performed on leachates. Treated water shall be reused within the project.

14. The solid wastes shall be segregated, managed and disposed as per the norms of the Solid Waste Management Rules, 2016.
15. Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Waste Management Rules, 2016.
16. Project should ensure that the site is properly cordoned off from general movement and no unauthorized person or goods permitted to enter the premises. Necessary security provision should be made to prevent unwanted access.
17. Traffic congestion near the entry and exit points from the roads adjoining the project site shall be avoided. Parking should be fully internalized and no public space should be utilized.
18. Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
19. The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.

Thereafter, Regional Office, HSPCB, Hisar Region again appealed to the general public present during the time of hearing to ask any more questions/suggestions w.r.t. the said project. No more question/suggestion asked by the public present during hearing and thereafter public hearing was ended with permission of the chair.

Regional Officer, HSPCB
Hisar Region

Ld Additional Deputy Commissioner, Fatehabad
